# DESEXING EAR TATTOO

**Animals sterilised  
at this clinic will be  
tattooed with a small  
symbol inside the left ear  
(constructed of dots)**

This symbol allows simple and rapid recognition of the sterilised state of animals. The tattoo is performed under general anaesthesia and is painless & non-disfiguring.

**If you do not wish your pet to be tattooed  
please tell the nurse when you leave your pet**
