AVA Events Team

Kandy Musgrave
*National Events Manager
and Conference Secretariat*
Stephanie McGuinness
Victoria Wood

Thank you to all the AVA staff and group coordinators, too numerous to mention, who contribute their time, advice and resources to help us deliver many components of the conference.

AVA President's Welcome

Everyone is unbelievably excited to finally see each other again. We know that community is a big part of this close-knit profession and that feeling of community is something we've missed for too long. I look forward to seeing old friends and making new ones.

Warwick Vale

A note from the Convenor

Welcome back to the AVA Conference! I am really looking forward to joining my colleagues for a week of world class continuing education, catching up with colleagues and seeing what's new from our exhibitors on the Gold Coast. This year's program is packed with sessions to improve your clinical skills, business acumen and support your health and wellbeing.

The 2022 AVA Annual Conference has something for every veterinary professional from world class speakers, mini workshops, panels and lectures throughout the week and in-depth hands-on workshops on Friday and Saturday on a range of clinical, business and wellbeing topics. A dedicated recent graduate stream will cover topics including managing difficult clients, planning your career, and understanding the economics of business for associate veterinarians. You'll discover exciting innovations that are transforming veterinary care and learn how to adapt and innovate, to meet future business demands in a post COVID world. The extensive social program is an opportunity catch up with old friends and make new ones. I look forward to seeing you on the Gold Coast in May.

Meredith Flash

General Information

Gold Coast Convention and Exhibition Centre (GCCEC), 2684-2690 Gold Coast Hwy, Broadbeach QLD 4218
(07) 5504 4000 | www.gccec.com.au/

Sessions: Arena 1B, Arena 1A, Room 5, Room 6, Room 7, Room 8, Central A & C

Sponsored breakfast sessions: Central A **Plenary:** Arena 1B

Exhibition: Exhibition Hall

Australian Veterinary Association Stand and Wellness Centre

Come and meet your friendly AVA staff team representative and find out about membership benefits you can access. You can also come and hear about the outcome of the Federal Election and what it means for how the AVA will lobby the new Government.

We invite all delegates to participate in an annual health check and wellness survey. Bookings are essential, as our onsite nurses are adhering to a very strict schedule.

There is also the opportunity to take time-out, refresh and check out the various wellness resources before heading back to lectures.

Badges, scanning and catering

As a security requirement, please wear your name badge at all times to access sessions and the exhibition. Catering is served in the exhibition where you will be scanned each day. Afternoon tea on Thursday will be served in the foyer. There is a dedicated table for special dietary requirements.

Banking

GCCEC is a cashless venue. There are ATM machines in Broadbeach and at the Star.

Wi-fi

Connect to GCCEC link on your device.

Carer's pass – parent's room – child minding

Ask at the registration desk about carer's passes which provides parents/delegates nursing children to be provided with assistance.

Please note there are no arrangements for childcare during the Conference. There is a parenting room on the Ground Floor, Foyer B.

Messages

The message board is near the registration desk. Exhibition and passport competition winners and delegate and exhibitor messages can be left on the board.

Mobile phone app

Scan the QR code on the front cover and add the conference mobile app to your smartphone. Gain access to the conference program, speakers, sessions, social events and workshops and field trips and exhibitors. You can also set up your own profile to connect with your colleagues.

Registration desk/additional tickets

Tickets for social events and workshops and field trips can be purchased depending on availability.

4CYTE™ cat

Protect, Maintain &
Promote Healthy Joints

Meet the Newbie

It's the **4CYTE™ EPIITALIS® FORTE** you know, reformulated especially for cats.

We've kept the revolutionary active ingredient, easy administration and safety profile. But we've changed two key elements: **concentration** and **flavour**.

90%

Of cats over 12
have radiographic
evidence of
arthritis¹

61%

Of cats over 6
have arthritic
changes in at least
one joint²

48%

Of cats over 6
have two or more
affected joints²

**The 4CYTE™ money-back customer guarantee has
been extended to cats!**

If you or your clients are dissatisfied with the results from 4CYTE™ EPIITALIS® FORTE Cat – or the cat refuses to accept the product – simply contact your Provet Customer Service or Business Account Manager, and they'll do the rest*¹.

*A guarantee claim form will be completed and reviewed by the Interpath Global team and you will hear back within 48 hours.
¹Conditions apply regarding correct usage of product.

Provet Code

22-27 May 2022

Open Forum

Integrative Veterinarians Australia (IVA) Open Forum

Thursday 26 May 2022, 12.30pm – 1.30pm, Room 5

IVA open forum for members and non members who are interested in finding out more about this SIG, open discussion and updates on projects and plans in the coming months.

Member Forum

Thursday 26 May 2022, 4.30pm-5.30pm, Arena 1B

Hear about our advocacy actions and strategies, and the Board's key projects. This is your opportunity to ask the Board questions; have your voice heard and hear what's happening in your association. Come. Listen. Consider. Discuss. Enjoy.

Passport competition

You will receive a passport book in your conference satchel. Fill in your passport with stamps* and drop it into the passport competition barrel at the AVA stand by **10.30am on Thursday 26 May**.

Simply take a stroll and visit the exhibitors' stands listed in the passport and peruse the products and services on offer. Once you are up-to-date with the latest veterinary products or services, ask the exhibitor to stamp your passport.

You need a minimum of four (4) stamps per page to enter.

Be part of something bigger.

Don't go it alone

Breakfast Sessions

Complimentary for registered delegates. Registration essential

Royal Canin Breakfast

Monday 23 May 2022, 6.45am for 7.00am-7.50am – Central Room A

“Keep Calm” It’s here with Dr Julie Summerfield.

Do you ever wonder if you could be doing more for your anxious patients? “Learn more about multi modal approaches to anxiety in dogs & cats, and how our new ROYAL CANIN® diet can help!”

AVA Gold supporter

AVA Platinum supporter

Hill's Pet Nutrition Breakfast

Tuesday 24 May 2022, 6.45am for 7.00am-7.50am – Central Room A

"Making itchy conversations easier" with Dr Callum Bennie

Come and join dermatology specialist Dr Callum Bennie for breakfast where he will take you through some of his tricky dermatology cases from diagnosis through to multimodal management including the importance of nutrition. Dr Delisa Appleton from Hill's Pet Nutrition will then utilise the new Hill's Quick Reco tool to help find the right food for one of these cases, calculate the amount to feed and what it will cost per day, as well as generating a personalised nutrition plan for the patient.

Australian Christian Veterinary Fellowship (ACVF) Breakfast

Kindly sponsored by Bloodline Equipment

Tuesday 24 May 2022, 6.45am for 7.00am-7.50am

Windmills and other things with Dr Alan Guilfoyle

Zoetis Breakfast

Wednesday 25 May 2022, 6.45am for 7.00am-7.50am – Central Room A

The new science of feline osteoarthritis (OA) pain: Nerve growth factor and monoclonal antibodies for managing OA pain in cats.

AVA Silver supporter

Greencross Vets Breakfast

Thursday 26 May 2022, 6.45am for 7.00am-7.50am – Central Room A

Keeping fuel in the tank during your shift with Cathy Warburton

Staying well is about what you do at work, as well as what you do outside of work. It's also about what you do and what your workplace supports you to do.

Times are tough in the veterinary profession – we all know it. Many of us are arriving home emotionally exhausted. You get home, have a quick chat to your family or friends, eat some healthy food, do a spot of yoga, get as much sleep as you can, and turn up to work with your tank ¾ full ready to make a difference. Amazing effort! Fast forward a few consults and phone calls, a procedure and two difficult interactions with clients and you can feel that your fuel level is low. You still have a lot to get through. So - let's talk about what you and your team can do to keep your fuel tank topped up during the day, so that you stay energized, well and motivated to keep doing the work you love.

AVA Platinum supporter

Morning Yoga

Morning Yoga | Foyer A, Ground Floor
Tuesday – 6.45am-7.30am

Kindly sponsored by Vetoquinol

Morning Yoga | Foyer A, Ground Floor
Wednesday & Thursday – 6.45am-7.30am

Kindly sponsored by VetPartners

While some hear a bark, you hear your calling.

And we understand that the call isn't always easy to answer, no matter how much you love animals. That's why we're working harder than ever to support your unwavering care and make nutrition conversations easier:

- 1 Redesigned packaging with easy-to-explain benefits
- 2 Hill's Quick Reco tool offers quick personalised nutrition plans
- 3 Our best taste technology ever so you can recommend with confidence

Workshops and Field Trips

Receive hands-on practical experience from veterinary experts across different interest areas.

Equine Veterinarians Australia (EVA) - Diagnostic Imaging of the Distal Limb and Foot Workshop

Equine Veterinarians Australia (EVA) Workshop - Field radiology and ultrasonography

We have put together a world class line up of speakers and demonstrators for this workshop presented over 1 ½ days. Aimed at recent graduates and mixed practitioners wanting to improve their diagnostic imaging skills. It will provide the theoretical and practical knowledge to achieve optimal results from radiology and ultrasound equipment. By the end of the workshop, delegates will have the ability to know which modality best suits investigating the presumptive diagnosis and where an integrative approach will provide greater prognostication.

The compulsory theoretical component will be presented on Thursday starting at 10:30am within the conference program:

Compulsory Pre-workshop Lectures Thursday 26 May 2022

Room 6, GCCEC from 10.30am
Included in full and day registration

Full day practical workshop Friday 27 May, 7.00am-3.00pm

WestVETS Equine Animal Hospital,
540 Mount Crosby Rd, Anstead

Spend a half day of each modality with hands on practical instruction of ultrasound and radiology of the distal limb in small groups with specialist instructors.

Radiology Tips and tricks for perfecting your radiographic approach to the following anatomical regions (covering the PPE and yearling radiographic views within each relevant station). Areas covered include the distal extremity, mid appendicular skeleton and proximal appendicular +/- axial skeleton.

Demonstrators: Tias Muurlink, Paula Williams, Penny Dow

Ultrasonography Tips and tricks for perfecting your ultrasonographic approach to the following anatomical regions: "Buttonology" and transducer manipulation (using the flexor tendons of the metacarpus), pastern/distal extremity and forelimb suspensory ligament.

Demonstrators: Alex Young, Kirsten Neil, Sue Jones

Price includes all catering and transfers from Gold Coast to Anstead and Anstead to Brisbane Airport. Please note the two locations.

AVBIG Currumbin Wildlife Sanctuary Hospital Tour

Friday 27 May 2022, 8.00am-2.30pm

28 Tomewin Street, Currumbin

Take part in an exclusive VIP hospital tour around the Currumbin Wildlife Hospital. Enjoy a light lunch and explore the park at your own pace or take advantage of a discounted koala encounter/photo. The bus will depart from Gold Coast Convention Centre and travel 30 minutes down the Gold Coast Highway to the Currumbin Wildlife Sanctuary. The bus will return early afternoon where you will be given the option to be dropped at the Gold Coast Airport or return to Broadbeach. Price includes bus transfers, park entry, a light lunch and the VIP hospital tour.

- AVA Member: \$125
- AVA SIG Member: \$110

VBG Exclusive Insights Tour

Proudly sponsored by: Profit Diagnostix

Friday 27 May 2022, 8.00am-4.30pm

A behind the scenes tour of three outstanding small animal veterinary practices on the Gold Coast. Pet Wellness Centre - Burleigh Heads, Reedy Creek Veterinary Hospital, Tallebudgera Veterinary Clinic.

If you are planning to build or renovate; if you are looking for ideas to improve practice productivity; if you are looking to buy into a practice this tour is for you.

Areas covered:

1. HR, marketing (including website analysis), IT, clinic operations and design – in other words, pretty much anything you want to ask the hosts or other delegates
2. Business analysis: Practice Q&A on all of the above topics + productivity models on each host practice which can be used on your own practice.

This day is structured as a travelling class-room with 3 hospital visits with host's Q&A, business analysis session and delegate Q&A throughout the day, so bring your questions and practice problems for the group to discuss and solve.

IVA workshop: Wellness, Self Care and Resilience Workshop

with Petrea King, CEO of the Quest for Life Foundation

Friday 27 May 2022, 8.30am-4.30pm

Gecko House, 139 Duringan St, Currumbin

This workshop is all about you. We struggle to function at our most skillful level if we've neglected our inner sense of health and well-being. The keys to resilience and happiness lie in our own hands. You'll leave this workshop with a clear understanding of what replenishes you and you'll feel highly motivated to implement the practical strategies, tools and skills for flourishing in your life and work. Take some time out for yourself to learn and practice self-care techniques to relieve stress and improve your mental health and well-being.

AVCB/AVPH/AVAWE Emergency Response Workshop

Friday 27 May 2022, 8.30am - 4.30pm

Meeting Room 4, Gold Coast Convention and Exhibition Centre

In this age of uncertainty, disasters seem inevitable. Increase your business resilience and get on the front foot. Learn of the different roles that vets can play in emergency responses and how to have your clinic in the best position to support your own mental health, your clients, their animals, your wider community, and your bottom line.

Join Kevin Cooper and other experts across various veterinary disciplines to explore the critical issues of emergency response. You will leave this workshop with the right disaster plan for your clinic - whether it be against bushfires, floods or cyclones and a wealth of information besides.

Plenary Sessions

**Welcome to Country and
Welcome from AVA President,
Warwick Vale**

*Monday 23 May 2022,
10.45am-12.15pm*

**Plenary - Life Beyond Fear
Mark Mathews**

As a world class big wave surfer, Red Bull Athlete and Surf Contest Director Mark Mathews has become obsessed with the relationship between personal growth, high performance and fulfilment. Winner of an unprecedented 3 back to back Oakley Big Wave Awards, Mark has cemented himself as one of the best big wave surfers in the world.

His compelling story offers game changing tips to adapt to stress, harness resilience and perform when it counts. He has deconstructed, fine-tuned, and personalised emotional resilience techniques to successfully strengthen ones mindset and sustain long term performance.

*Wednesday 25 May 2022,
12.30pm-1.30pm*

**Plenary - Veterinary Science,
Technology and the Future
Paul Higgins**

Paul Higgins is a Futurist and Strategist with Emergent Futures. He holds a First-Class Honours Degree in Veterinary Science, a Bachelor of Animal Science (Research) and a Masters Degree in Strategic Foresight.

Paul's business experience has taught him that critical business decisions have as much impact on business success as long hours of focused execution. However he recognises that most people have little time to look around and think about what might be happening. Therefore the approaches that Emergent Futures uses align themselves to the reality of a fast moving, time critical modern world from quick scanning processes to longer strategic analysis.

*Tuesday 24 May 2022,
12.00pm-1.00pm*

**Plenary - Cultivating Climate Courage
Anika Molesworth**

Anika is a thought-leader of food systems resilience, a researcher in international agricultural development and a sought-after keynote speaker.

In 2014, she established Climate Wise Agriculture as a knowledge-sharing platform, with a modus operandi to facilitate multi-direction flow of information and skill transfer regarding climate change and farming.

With a rapidly growing global population we need to transform the food system to one that is good for both people and the planet. Changes can be made from the paddock to the plate, and by doing so we can create a more just, equitable and sustainable food system.

Although the enormity and complexity of the climate challenge seems daunting, with the right skills and know-how the solutions are at hand.

Peter Reid

Ed Annand

Thursday 26 May 2022, 11.30am-12.30pm

**Ben Cunneen Memorial Plenary: Hendra:
Past, present and future
Peter Reid and Ed Annand**

No other zoonotic viral disease has impacted the Australian Veterinary profession more than Hendra virus (HeV) which has caused the deaths and illness of veterinarians, their veterinary staff and clients. Peter Reid and Ed Annand will take us through luminary scientific discoveries and personal experiences since Hendra virus was discovered 27 years ago including latest research findings.

Introducing our Keynote Speakers

Sue Crampton (Australia)
Stream: Business and Recent Graduate

AVA/VBG Veterinary Business Professional of the year 2020.

Sue is acknowledged as a leadership trainer and consultant across Australasia in the areas of practice and organisational development, strategic planning, communication excellence & staff development and management. Sue has a Bachelor of Business, majoring in Human Resources and Marketing, as well as her Diploma in Company Directorship (GAICD) and a Masters in NLP.

Sue invests time working as Business Manager and consultant for Provet AIRC/CCG whilst maintaining a governance connection with a quality veterinary practice in Brisbane.

Sue has a practical hands-on approach and brings with her a wealth of both corporate and small business skills, having been the founder of the much respected AIRC and CCG.

Sessions include:

- Cultivating client communication, compliance & courtesy Part 1 & 2
- Leadership growth and development: Practical tips to build your teams careers, development and growth
- Understanding your worth as a Veterinary Professional
- State of the Human Resources panel
- VBG Hub

Olivia James (Australia)
Stream: Equine and Dentistry

Olivia James is a member of ANZCVS in equine dentistry (2010), a Diplomate of ICEVO (2015) expects to become a Diplomate of AVDC in early 2022. Dr. James consults on head and oral surgery of horses in Oceania and Asia with Australian Veterinary Equine Dentistry, performing referral dental surgeries and teaching veterinarians. She lectures internationally and is the Director of The Veterinary Dental Company (online equine dentistry education) and the Equine Practice Company's Business Mastermind.

- EOTRH Management
- Improving practice profitability with equine dentistry
- Radiology of the equine head with a focus on dentition and paranasal sinuses
- Sedation techniques for standing equine dental procedures
- Sinus flaps and trephination to the equine head

Alison Lambert (United Kingdom)
Stream: Business and Recent Graduate

Alison qualified as a vet from Liverpool University in 1989. She worked in practice for several years before pursuing a career with Hills Pet Nutrition and MARS, discovering the customer experience passion that led her to establish Onswitch in 2001. Alison is Honorary Associate Professor at Nottingham University's School of Veterinary Medicine and Science and was given the AVA's Veterinary Business Thought Leader award in 2019 and the RCVS Impact award in 2021.

Sessions include:

- Building good memories in the consult room benefits pets, clients, and you!
- How diversity and inclusiveness can provide dividends for your business
- Fewer words, better said – ten top tips for communication clarity
- Insights and Innovation: Taking a new approach to consult room communication
- State of the Market panel
- VBG Hub

Loic Legendre (Australia)
Stream: Dental

Loic Legendre is a member of both the American and the European Veterinary Dental Colleges. He also holds a Zoo and Wildlife Dentistry Certificate from the AVDC. Loic now works in Vancouver, BC, in a Veterinary Dental Referral Centre. He shares the work with two other boarded dentists and two residents. The centre looks after conditions involving the face, the oral cavity and the nose but looks at nothing below the neck. Loic's fields of interests are orthodontics, maxillofacial reconstruction, and exotics from hamsters to elephants.

Sessions include:

- Mandibular fracture repair without pins, plates and screws
- Oronasal fistula repair - the scourge of oral surgeries
- Tips when tackling oral tumours
- Treatments for linguoverged canine teeth

Tias Muurlink (Australia)
Stream: Equine

Tias graduated in 1988 and has spent most of his career in Equine practice. Initially he worked in private practice jobs both as an employed vet and practice owner. Tias then worked a season for the Scone Vet Hospital before heading to the University of Melbourne Veterinary Hospital. Here he consolidated his skills and qualified by examination as a specialist in Equine Surgery. He continued at the University of Melbourne Veterinary Hospital as the Head of the Equine Centre. Following this he spent a year at the University of Queensland as a specialist surgeon. In 2013, he left University life and started back in private practice based in Warwick, founding WEV soon after.

Sessions include:

- Castration: update and how to minimise problems
- Colic - not so scary when diagnostic steps are taken one clever step at a time
- Reproductive surgeries - when is surgery helpful in achieving and maintaining pregnancy
- Wounds triage and assessment
- Working up a lameness in the field, including how to get useful information using your portable x-ray and ultrasound machines

Christopher Pachel (USA)
Stream: Behaviour

Chris Pachel is a board-certified veterinary behaviorist and is the owner and lead clinician at the Animal Behavior Clinic in Portland, Oregon. Chris lectures extensively both domestically and internationally, teaches courses at multiple veterinary schools in the United States, and has authored numerous articles and book chapters for veterinarians and pet owners.

He is a sought-after expert witness for legal cases and serves on the Editorial Advisory Board for dvm360. He is also a Vice-president of Veterinary Behaviour for Instinct Dog Behaviour and Training, as well as co-owner of Instinct Portland, which opened in the fall of 2020.

Sessions include:

- Canine teenagers: adolescent behaviour development and support strategies
- Chill out - incorporating conditioned relaxation into behavioural therapy
- Don't bite the hand that feeds you: Canine resource guarding
- Feline Idiopathic Cystitis - a behaviorist's perspective
- Medication use for canine aggression cases - applications and considerations
- More than good recommendations - the impact of client communication on clinical outcomes
- Neurobiology of canine reactivity
- Risk assessment of canine aggression cases
- Separation anxiety "basics"
- Separation anxiety "beyond the basics"

Are your
patients really

Tel: 02 9328 5385

Email: sofaer_4@hotmail.com

Website: www.protexin.com

Contact: Dr Benji Sofaer

ADM is dedicated to producing innovative, research based products of the highest quality, providing a complete range of products for the veterinary market, under the ADM brand. Leading products in the GI range include Pro-Kolin+ and Synbiotic D-C for dogs and cats, alongside B12 and urinary ranges.

APIAM Animal Health Limited

Stand: 7

27-33 Piper Lane , East Bendigo, VIC 3550

Tel: 0437293046

Email: leisa.denaro@apiam.com.au

Website: www.apiam.com.au

Contact: Dr Leisa Denaro BVSc

Apiam Animal Health is one of Australia's leading rural veterinary businesses including 53 Veterinary Clinics and 248 highly experienced veterinarians as part of a team of 927 dedicated professionals.

Our vet clinics and allied services are spread Australia wide reaching into the heart of dairy, beef, sheep and pig country and the regional communities at their centre.

Apiam Animal Health's purpose "Enriching the lives of animals, people and community", is driven by our values:

- "We believe in ourselves and each other"
- "We embrace opportunities and grow together"
- "We take on challenges and celebrate learnings"
- "We act with integrity"

We collaborate and share knowledge across our mixed, companion and equine clinics, production animal consultancies, laboratory and logistic businesses to deliver the best outcomes for the animals in our care.

When we invest in our people and clinics we are investing in the future of regional towns, their communities and their animals.

ARO Systems

Stand: 48

PO Box 8017 , WODONGA , VIC 3689

Tel: 02 6059 6664

Email: rhedditch@arosystems.com.au

Website: www.arosystems.com.au

Contact: Mr Read Hedditch

ARO Systems is focused on helping practices access the latest high quality, veterinary-specific imaging equipment.

With 20+ years' experience in Veterinary Technology, our team have the expertise to recommend & deliver the perfect solution and support it to ensure it keeps working.

We began helping vets when the landscape was dominated by adapted medical tools poorly suited for veterinary use, and have been part of the push for vet-specific imaging equipment. We continue to help vets modernise their practices preparing them for the future.

Understanding each practice has unique needs, we work closely with veterinarians to tailor a solution that maximises value for their practices. We offer our clients the best digital imaging solutions available by partnering with industry leaders.

This year we have products from:

SmartCareworks (DR Systems), Epica (CT Scanners), Dentanomics, Inovadent (Dental), MDS Vet (Scopes), Sentier (Vetorder), Ecotron (X-Ray), Browiner (X-Ray), BMV (Ultrasound and Monitoring) and IIS (PACS and Radiology Software).

Asteris

Tel: +1 877 727 8374

Email: erik@asteris.com

Website: www.asteris.com

Contact: Mr Erik Berger

Asteris is a leading provider of PACS, and RIS technology solutions. Designed by veterinarians for veterinarians, our Keystone software suite offers a unique, patented approach to digital image management, viewing, sharing, and reporting while also offering advanced teleconsultation workflows and integrations with various practice management software systems. Our solution will allow you to focus on premier patient care rather than the technology it requires.

ATX Solutions

Stand: 145

Unit 4 16 Murphy Street , O'Connor, WA 6163

Tel: 0487988174

Email: lofi@atx.com.au

Website: www.atx.com.au

Contact: Miss Lofi Taumalolo

Australian owned ATX has evolved in the last decade to becoming a global equipment supplier that prides itself on offering affordable, innovative technology imaging solutions.

ATX is committed to supporting veterinarians throughout Australia by building a strong after sales service wherein clinicians can confidently deliver patient care without the need to worry about the operation of their equipment. ATX aims to continue its growth through expanding not only its domestic but also global distribution with market leading 'PAWSOME' imaging solutions.

Ausrichter Animal Health

Stand: 135

Tel: 0407 271 697

Website: www.ausrichter.com

Contact: Warwick Harnwell

Ausrichter Animal Health has been serving the veterinary industry for over 40 years. Since 2015 Ausrichter has been dedicated to developing and manufacturing Australian-made products for the Australian market.

Our home grown products include Scour-X Anti-Diarrhoeal Suspension, formulated to ensure maximum absorption of antibiotic resulting in a once a day dose that meets the modern industry requirements for judicious antibiotic use.

- X-Sedan - made in Australia for Australian conditions. Detomidine 10mg/mL – the product that you know and trust but now Australian made and owned.
- Ban Itch Local Anaesthetic Spray for Cats and Dogs contains Lignocaine + Denatonium. Recent studies indicate a local anaesthetic, anti-fungal & antibacterial activities. Wide range of uses for topical treatment. Easy use for owners.
- Proin Chewable Tablets for Male and Female dogs is an innovative product to treat Urinary Incontinence, using tasty chicken liver chews that increases user compliance

Australian And New Zealand College Of Veterinary Scientists

Stand: 47

Building 3 , Garden City Office Park. Eight Mile Plains, QLD 4113

Tel: 07 3423 2016

Email: cm@anzcvs.org.au

Website: www.anzcvs.org.au

Contact: Dr Mary Anne Hiscutt

ANZCVS is The Australian College of Veterinary Scientists. Established in 1971, the College continues to fulfil its purpose of advancing professional qualifications and education across the veterinary sector for the benefit of society.

College Membership signifies that a veterinarian has expertise and competence in a nominated subject area. To become a Member of the College, a candidate must have at least three and a half years of post-graduate experience as a veterinarian and have successfully completed all examinations in one of the diverse subjects on offer.

College Fellowship is associated with scholarly and technical excellence in a particular subject. Standards required for training and examination in Fellowship subjects meet or exceed the prerequisites for registration as a Veterinary Specialist in Australia and New Zealand.

Australian Veterinary Association

We also offer efficient and practical Sterilisation Solutions and Vessel Sealing Devices to enhance our product range and services.

We are proud of our EXCLUSIVE veterinary distribution agreements and associations with industry leaders such as Olympus, B.Braun/Aesculap, Anderson, Aohua and Dr Fritz.

MAKE THE INVISIBLE VISIBLE!! Don't take risks with your precious endoscopy equipment!

AVet Health Pty Ltd

Stand: 33

Unit F24, 16 Mars Road, Lane Cove, NSW 2066

Tel: 1300 28 38 28

Email: paul.blanc@avet.health

Website: www.avet.health

Contact: Mr Paul Blanc

AVet Health is a new Australian veterinary pharmaceutical company focused simply on delivering high quality animal health products at great value, exclusively through veterinary clinics.

The single-minded purpose of AVet is to help veterinarians achieve even greater success in practice. AVet partners closely with its customers to enhance the total health of their veterinary practices: from patient health outcomes to supporting the practice's financial health.

Wagg & Purr is AVet's flagship companion animal umbrella brand with a rapidly expanding portfolio of OTC and prescription products offered exclusively to veterinary customers. With its vet-exclusive positioning, Wagg & Purr helps practices retain sales that would have otherwise been lost to other channels and expand the margins of the clinic whilst lowering health care costs

to their clients at the same time. We welcome you to visit our stand so we can discuss how we can add value to your practice.

BCF Ultrasound Australasia

Stand: 25

Unit 13, 23A Cook Road, Mitcham, VIC 3132

Email: chris@bcfultrasound.com

Website: www.bcfultrasound.com

Contact: Chris Graham

At BCF Ultrasound, we want our customers to get the most out of their ultrasound machine. We pride ourselves on being one of the leading providers of portable ultrasound equipment and accessories for the veterinary market.

We understand that quality patient care is of paramount importance and our versatile and durable ultrasound solutions allow our customers to find the best options suited to their individual needs – based on application and budget.

As part of our ongoing commitment to our customers, we develop and support ultrasound training workshops, provide installation training and develop education materials online. When you buy an ultrasound machine with us, you can be guaranteed that you will receive the support you need to get the best out of it. At BCF Ultrasound, we have a service centre in Australia and NZ with highly qualified service engineers.

Bova Aus

Stand: 114

Suite 1, 304-318 The Kingsway, Caringbah, NSW 2229

Tel: 02 95253044

Email: brett@bova.com.au

Website: www.bova.com.au

Contact: Mr Brett Davidson

At Bova Aus, our commitment to quality is of the highest standard and we guarantee four aspects of quality: quality ingredients, quality products, quality assurance, and quality service. Our world-class facility comprises over 120 employees nationally, 190 globally, and our laboratories house state-of-the-art equipment that includes both sterile and cytotoxic suites. All of which are placed under stringent quality assurance.

Alongside our tailor-made prescriptions, we provide a range of quality assured products that are end product tested and undergo stability trials so that veterinarians can have confidence in the medication they are prescribing. We understand that the quality of a compounded medication is key to a successful clinical outcome and our commitment to quality means that with Bova Aus veterinarians can have the confidence that they will receive the highest quality medications available to improve the clinical outcome for all their patients.

Cenvet Australia is a national animal-health and pet-products wholesaler providing an extensive range of goods and services to the veterinary market and allied pet industries.

Cenvet Australia warehouses and distributes for over 160 manufacturers and suppliers across Australia from five strategically located facilities.

Cenvet is proudly Australian owned and managed, and is dedicated to providing our customers with the highest possible level of service. The company employs a dedicated field sales force in every state, and backs them up with four highly motivated customer support centres around the country. With a strong focus on customer service and on-time deliveries, Cenvet Australia has a proven track record as one of Australia's leading veterinary-supply companies. Thank you for supporting an Australian owned and managed company, with over 150 veterinarians, related entities and staff participating as shareholders.

Compounding4Vet has gathered over 30 years of specialist compounding knowledge and experience in treating animal patients, working collaboratively with veterinarians and veterinary teams to deliver tailored and effective medication solutions that meet each animal patient's individualised needs.

In support of optimal patient therapy, Compounding4Vet invests in dedicated veterinary specialists who focus on delivering the highest quality services and products, supported by strict quality systems and procedures.

Our experienced pharmacists at Compounding4Vet have access to over 4,500 Active Pharmaceutical Ingredients and 14,000 formulations to customise strengths, dosage forms, and flavours to meet each individual patient's needs.

Covetrus

Stand: 100, 101, 102, 103

Website: www.provet.com.au

Covetrus is trusted and used every day by over 22,000 practices and is the market leader across Australia, New Zealand, United Kingdom and North America. With over 30 years' experience in delivering technology solutions for companion-animal, mixed or equine practices - our technology enables clinics of all sizes to run more efficiently and effectively.

Everything from appointment compliance, client communication, prescription management, inventory control, business reporting and more, Covetrus technology provides a one-stop shop for all your operational needs. Multiple systems are no longer needed to run a high-performing clinic - your teams can leverage the power of third-party integrations from diagnostics to insurance providers to e-commerce, all in one place. Whatever suits your needs, from cloud to desktop, in-clinic or on-the-go needs, we've got you covered.

You take care of the animals, while we take care of you.

Credabl

Credabl offers a quick, easy and pain-free way to get the finance you need.

We're a team of finance specialists providing tailored solutions for veterinary professionals. Through simplified, customised and digitised solutions, we ensure vets receive the financial attention they deserve in both their personal and professional lives. From home loans, practice fitouts and buying equipment to purchasing a practice and buying commercial property, we are your trusted partner and by your side every step of the way.

Getting more from my finance partner, means my patients get more from me.

Professional and personal finance solutions, tailored for you and turned around fast. When you partner with Credabl, you can expect all that and more. With a team of experienced finance specialists, we understand the veterinary sector so you can look forward to finance solutions that help you get on with business and looking after your patients.

You always get more with Credabl.

Deferit

Stand: 124

Level 9, MLC Centre, Sydney, NSW 2000

Tel: 0437096020

Email: nicholas.walsh@deferit.com

Website: www.deferit.com

Contact: Mr Nicholas Walsh

Deferit is an ethical bill budgeting and payments platform that allows customers to split up any bill (up to \$2000) for essential services into instalments and pay it back over time. We are completely free for businesses. There are no merchant fees and on the customer side, there are no late fees or interest. We charge a flat rate of \$5.99/month to the customer only while they are paying off an outstanding balance.

We have built a point of sale solution that allows the practice to generate a payment request for the customer and confirm payment so you can proceed with consultation or other services with peace of mind. This solution was built with busy practices in mind and the sign up, approval and payment process quick and easy in order to minimise disruptions at the front desk. For registered businesses we offer end of day settlement via bank-to-bank transfer.

Delicate Care

Delicate Care

Partnering with Vets to Nurture healthy pets

Delicate Care™ is an independent Australian owned company that's been making scientifically formulated, premium dry pet food since 1998. Delicate Care™ has been formulated in by one of Australia's leading pet nutritionists and is made in Perth, Western Australia. The formulations are designed to AAFCO standards and have been developed in conjunction with local veterinarians. The selected premium ingredients used in the formulations, puts Delicate Care™ at the cutting edge of nutritional science. The entire Delicate Care™ range is Vet exclusive, multifunctional, all natural, GMO-free and nutritionally complete.

Department of Agriculture, Water and the Environment Animal Biosecurity Branch | Animal Division

Stand: 49

18 Marcus Clarke Street, Canberra ACT 2601

Tel: 0468 567 766

Website: www.awe.gov.au

Contact: Dr Andrea Preusche, Senior Veterinary Officer, Livestock and Zoo Animals

The Department of Agriculture, Water and the Environment is one of Australia's largest employers of veterinarians. We offer exciting, challenging and rewarding career options.

Our work includes:

- developing national policies and strategies, and providing scientific advice that minimises the potential impacts of diseases on Australia's animal population
- biosecurity, operational and surveillance activities
- supporting and enhancing trade and market access for animals and animal products
- liaising to advocate cooperation between animal, human, welfare and environmental fields

This important and varied work occurs around Australia in offices, airports, shipping ports, laboratories, abattoirs, and overseas. The department recognises the importance of work/life balance and provides an excellent workplace environment.

Visit the jobs section at <https://www.awe.gov.au/about/jobs/apply> or for information on our veterinary specific graduate program <https://www.awe.gov.au/about/jobs/graduates>.

Come and talk to us about a new fulfilling career pathway!

Dermcare Vet

Stand: 75

7 Centenary Road , Slacks Creeks, QLD 4127

Tel: 0407005283

Email: mavee.garde@dermcare.com.au

Website: www.dermcare.com.au

Contact: Ms Maeve Garde

Dermcare-Vet is a 100% Australian owned and operated company founded in 1981 by Professor Kenneth Mason. Professor Mason was the first veterinarian in Australia to be registered as a specialist Veterinary Dermatologist. He is in demand to lecture in Australia and overseas. Many of his discoveries have application to both human and animal health.

Our aim, and thus our advantage, is that we concentrate the business on a limited range of very high quality products which are developed for specific veterinary dermatological purposes.

Dermcare-Vet products can be found in Australia, Asia, Africa and the Pacific where they are supported by a growing number of distribution partners. Malaseb™ is manufactured and distributed under license in both North and South America as well as in Europe.

At Dosel, we've created software solutions meeting the challenges facing the veterinary industry in maintaining Radiation Regulatory Compliance. Our online platform helps you manage end-to-end processes so you can find the information you need within minutes - and stay on top of your regulatory and accreditation requirements.

The use of x-ray, ultrasound and laser apparatus in veterinary practices is a small but vital component of veterinary medicine. However, the legal obligations are just the same for vets as they are for any medical use.

By making use of MyRSO (My Radiation Safety Officer) a web-based platform, you will be able to ensure all your regulatory and compliance requirements are met.

Elite is a leading national design, build and fitout expert, with offices in Brisbane, Gold Coast, Sunshine Coast, Sydney, Melbourne. We work with our clients Australia-wide.

With 35+ years' experience, the Elite team has developed a professional insight into what it takes to create and implement dream vet practice environments that are both aesthetically alluring and entirely functional.

Elite's project scope covers town planning, design, fit out, refit, retrofit and complete build.

Elite's award-winning 4-Step Process takes our clients from consultation through to construction to ensure your vision is translated on schedule and on budget every time with innovative design, precise planning and cost clarity.

Elite's highly qualified and experienced team understand veterinary clinic and hospital workflow and functionality, and they merge this with innovative design to create practice environments that delight.

Equine Veterinary and Dental Services (EVDS)

Stand: 40

160 Old Lilypool Road , South Grafton, NSW 2460

Tel: 02 6642 4700 ext. 2

Email: instruments@evds.net.au

Website: www.evds.net.au

Contact: Miss Elke Keep

EVDS is a one stop shop for all of your equine dentistry needs.

From equine dentistry tools, to Poskom xray generators, post-graduate training courses to Porta Safe Stocks we are sure to have what you need and if we don't, we will do our best to source it for you!

We not only have the distributorship for PowerFloat and TeraFloat in both Australia and NZ, but also are the only service agents in Australia for these products.

Our Porta Safe Stocks will keep your equine staff and clients safe whilst offering you a professional look and give you ample opportunity to advertise your company as you drive to and from appointments. We back our products because we use them in the field every day as we are also an equine veterinary clinic! Our PortaSafe Trailers and dentistry tools are designed by vets for vets.

With more than 50 years' experience delivering trusted, quality brands for our Customers, Norbrook® is one of the largest privately owned veterinary pharmaceutical companies in the world. We are continuing to drive the business forward through new product development, substantial investment and increasing revenue in all our main markets.

We hope you visit our stand to find out how you can benefit from our commitment to enhancing the health of farm & companion animals.

Panacea Cloud Practice Management

Stand: 154

3B Korari St, Eden Terrace, Auckland 1021, New Zealand

Tel: 0222464231

Email: sales@panaceahq.com

Website: www.panaceahq.com

Contact: Panacea Sales

Panacea is the most beautiful, easiest to use vet practice management system in the world.

At Panacea our mission is to make vets more successful. We believe that your practice management software should automate mundane tasks. It should be modern and actually easy to use.

Panacea is 100% cloud based, which means it's web-based and can be used securely from any device. It includes all of the features and functionality you need to manage your clients, patients, stock, reminders and all other aspects of your practice. It includes tight integration with Xero and integrated online reservations.

Talk to us today about your free trial and an obligation-free demo. At Panacea we never charge set-up fees, so it doesn't cost you a fortune just to get started. We'll also migrate all of your data from your legacy practice management system for only \$1,500. With zero downtime and no loss of data.

Paws App Pty Ltd

Stand: 146

414 La Trobe Street, Melbourne, VIC 3000

Tel: 0466255111

Email: ryan@pawsapp.com.au

Website: www.pawsapp.com.au

Contact: Ryan Tovey

Paws App is a digital engagement platform that nurtures and enhances the relationship between pet parents and their preferred veterinarian so pets live their best lives. Starting with online booking, the goal of Paws App is to digitise the customer journey for pet parents so veterinary practices can unlock efficiencies for their clinical teams as the profession struggles to adequately resource the growing demand for veterinary services.

The uptake of online booking by pet parents lags well behind consumer utilisation of other health booking engines such as Hot Doc who serve over 8 million active patients in Australia.

We believe a more pet parent centric, intuitive and frictionless approach to online booking will increase uptake and reduce inbound phone calls, allowing staff to service clients and generate revenue. Come to our stand today to find out more about Paws App, call on 1300 303 749 or email at support@pawsapp.com.au.

PetPack

Stand: 8

Suite 4, Level 1, South Melbourne, VIC 3205

Tel: 03 9690 6253

Email: info@petpack.com.au

Website: www.petpack.com.au

Contact: Dr James Ramsden

Founded in 2001, PetPack is Australasia's leading provider of online marketing and communication services for veterinary practices.

Hundreds of veterinary businesses across Australia and New Zealand rely on us every day to connect with their clients, win new business and drive better animal health outcomes.

Our engagement services provide practices with all of the necessary tools to cultivate profitable and lasting relationships with their clients while expanding their scope of care through the delivery of regular key animal health messages to their clients' inboxes and social media feeds, while our online marketing services generate new bookings and calls to drive business growth.

Our collaborative approach is built on understanding your

needs and fostering an improved understanding of how online marketing can work for you. We work exclusively with the veterinary industry and understand the how best to connect with pet owners to achieve your business and patient care goals.

The Pets + Vets Group WA

Stand: 89b

200 Orrong Rd Lathlain WA 6100

Tel: 08 9361 9044

Email: celeste@rickfennygroup.com

Website: www.petsandvetswa.com.au

Contact: Celeste Holtzhausen

The Pets + Vets Group WA is a non-corporate small animal veterinary group in the beautiful Western Australia.

We have 11 small animal practices from the Pilbara in the north to Albany in the south.

We aim to deliver a gold standard of care to not only our patients but to our staff as well. We realise the importance of life/work balance and the need for continuing education.

Our practices range from multi vet hospitals to sole charge remote clinics and are well equipped to deal with all emergencies. We offer 4 tiers of service from specialist care to hospital care to clinic care and mobile home visits. We look after all the needs of our patients.

Our very attractive remuneration packages for vets and vet nurses may include excellent hourly rates, return airfares, subsidised or free accommodation, use of practice vehicle, 40-hour work weeks and much more.

At the Pets + Vets Group WA we look after pets and our VET STAFF!

PetSure (Australia) Pty Ltd & GapOnly

Stand: 35

Level 1 465 Victoria Ave, Chatswood, NSW 2067

Tel: 0439 418 836

Email: nicolaw@petsure.com.au

Website: www.petsure.com.au

Contact: Ms Nicola Walters

At PetSure, we're on a mission to improve pet healthcare moments so that dogs, cats and their people can enjoy healthier and happier lives together.

As Australia's leading pet insurance administrator, we develop, underwrite and administer pet insurance policies on behalf of

The Hollard Insurance Company Pty Ltd. PetSure powers the pet insurance propositions of more than 20 brands, including some of Australia's most recognisable brands, such as Woolworths, RSPCA, PetBarn, Medibank, Bupa and HCF.

PetSure is also proud to bring you GapOnly® - our innovative pet insurance payment service. GapOnly® reviews and calculates your clients' pet insurance claim while they're still at the vet. They simply pay the gap (the difference between your invoice and their eligible pet insurance claim benefit) and go. It's a better payment experience, with no paperwork, on-the-spot processing, and less out-of-pocket expense!

Prime100

Stand: 119

40 Buys Ct , Derrimut, VIC 3026

Tel: 03 9394 1428

Email: peter@prime100.com.au

Website: www.primel00.com.au

Contact: Mr Peter Slattery

Founded in 2014, our goal is to design and manufacture innovative, functional and targeted Australian pet food. We are an independent 100% Australian owned & made pet food manufacturer based in Melbourne.

In 2019 Prime100 took on a whole new look and structure. Primarily, by purpose building a brand new manufacturing plant in Melbourne with all new specialized plant and equipment. In May 2021, Prime100 has received a \$100 million investment to expand our range with new product development and export our products to Europe and America.

We are a young, dynamic and invested team with a love of animals. We work together to introduce new, innovative and functional products to the Australian market. This ensures that both Veterinary professionals, and consumers, have truly functional diets that can assist dogs and cats with low to acute food sensitivities. Prime100 is proud to work in partnership with veterinary specialists and scientists from leading Universities and dedicated facilities. Our collaboration with these industry experts from Murdoch University, Melbourne Veterinary Specialist Centre & Western Australia Veterinary Emergency and Speciality (WAVES) ensures our diets continue to evolve with scientific research which meets the needs and standards of pets. Recent years have proven to be very exciting for the progression of Prime100. Partnering with industry specialists has allowed us to produce an extensive range of Single Protein Diets and treats, our RAW food range and ZeroG range. These diets provide functional and therapeutic options for veterinary specialists to treat numerous indications.

Provet Pty Ltd

Stand: 100, 101, 102, 103

Website: www.provet.com.au

Provet was established by a group of veterinarians who shared a common vision for the veterinary profession, to provide the veterinary industry with a resource to help veterinarians run better businesses and strengthen the profession through reinvesting proceeds into the industry professional bodies. Now 40 years on, the vision continues to be realised. Provet is committed to giving back to the industry to ensure its continued growth.

We are proud of our long association and value our relationships with the veterinary professional bodies through our industry sponsorships including: our Platinum Education Partnership with the AVA and EVA - Bain Fallon Platinum Sponsor, AVA Conference Platinum Sponsor, ASAV Conference Gold Sponsor, VBG Summit Gold Sponsor and numerous other sponsorships and associations.

ROYAL CANIN® is a global leader in pet health nutrition. Since our establishment in France in 1968, we have maintained a unique philosophy of putting cats and dogs first through precise and individualised nutrition.

Underpinned by science and observation, our innovative nutrition solutions take into account breed, size, age, lifestyle, weight, gender, digestion, health condition and genetic makeup to provide the most effective diet for each cat and dog.

The value Royal Canin provides veterinary clinics has evolved beyond nutrition. Delivering health through nutrition is what drives us. Our aim is to transform each cat and dog's health and wellbeing by creating premium, complete and balanced nutritional solutions, and supporting our veterinary partners in making nutritional recommendations through our knowledge and service tools and now our new diagnostic aid and monitoring tools.

We represent concerned veterinarians, veterinary nurses, practices and industry partners across Australia who want urgent climate action.

We hold a special place in the heart of communities. Veterinarians are highly trusted professionals spanning multiple fields. We can comfortably talk to millions of Australians about the health of animals, the importance of stable environments and the urgent need for climate action.

Our strong member base and passionate volunteers:

- train people within our industry to become advocates for action
- set up Community Impact Groups
- come together to call for a future where animals thrive.
- We support policies to protect all animals by:
- bringing about a rapid shift to 100% renewable energy
- stopping new coal mines and exploration
- improving forest management and agriculture to be climate positive.

We are the voice for all Australian animals. We invite you to become a champion in your community.

Vetoquinol Australia Pty Ltd

Stand: 60, 61

Vetoquinol Australia

L2/485 Kingsford Smith Dr, Hamilton QLD 4007

Tel: 0439 708 991

Email: diana.castle@vetoquinol.com

Website: www.vetoquinol.com

Contact: Mrs Diana Castle

From humble beginnings in a pharmacist's dispensary in 1933, to a team over over 2400, Vetoquinol now serves veterinarians and pet owners around the world. As an independent player, Vetoquinol develops, manufactures, and distributes veterinary drugs and non-medicinal products in 24 countries across Europe, the Americas, and the Asia Pacific region with a focus on the well-being of animals.

In Australia, our complement of products target parasitology with Drontal and Profender and animal behaviour with Zylkene. This year we are excited to introduce a new way to improve your patient's quality of life by accelerating skin regeneration with Phovia.

Contact: Mr Robert Leach

VBB seeks to achieve a world of better health for animals and people, through delivery of its volunteer-based programs: The Australian Veterinary Emergency Response Team (AVERT), VetMatch, and VetTrain Programs.

AVERT was launched in 2015 and is dependent upon its extensive national database of thousands of volunteer veterinarians and veterinary nurses willing to assist in the response to natural disasters or outbreak of emergency animal disease (EAD) in Australia.

VetMatch entails the deployment of carefully screened veterinary volunteers to assist in the work of selected animal welfare groups, predominantly in developing communities overseas where access to veterinary care is otherwise limited or non-existent and typically where dog population management and rabies control efforts are high priority. In late-2020, VBB launched the Australian arm of the program (VetMatch-AU), deploying experienced veterinary volunteer professionals to assist animal welfare organisations in our own backyard, such as RSPCA, and the Animal Welfare League.

VetTrain provides clinical training courses, delivered by VBB-registered volunteer veterinary teaching staff with relevant postgraduate qualifications and experience. The program hosts these training sessions in countries where continuing veterinary education opportunities are typically very limited. This has significant benefits with respect to the quality and consistency of veterinary care, especially that provided to strays and street dwelling animals.

Vets Central

Stand: 123

24/238 Robina Town Centre Drive, Robina, QLD 4226

Tel: 1300 838 236

Email: careers@vetscentral.com.au

Website: www.vetscentral.com.au

Contact: Debbie Jenner

Vets Central is establishing itself as Australia's leading veterinary partner, supporting the delivery of quality veterinary services to the community through an engagement model that puts veterinary team members first, and with a 'non-corporate' approach that respects the legacy, autonomy, identity, and processes of each of our practices.

Our industry firsts include providing equity to all our employed veterinarians along with a defined structure that provides our vendors with a fair 'earn-out' process in conjunction with support from our Support Office in providing practices with recruitment, payroll, finance, marketing, and IT support.

A veterinary career with Vets Central offers an exciting environment within a network of well-established practices. With us, you'll enjoy a rewarding career with excellent benefits, mentoring, career development, flexible working arrangements and equity opportunities to help you thrive in your veterinary career.

Vets Choice

Stand: 72, 73

Level 13, 171 Collins Street, Melbourne Victoria 3000

Tel: 03 980 9789

Website: vetschoice.net.au

Contact: Lyz Smoothy

Vets Choice insurance for pets is endorsed by the AVA and backed by a 20-year partnership with Guild Insurance. Our aim is to promote responsible pet ownership and increase the number of Australian pets who are protected by insurance. Vets Choice is independent of all other pet insurance companies currently in the market, and the only insurer endorsed by the AVA. Vets Choice understands that pets weren't chosen for their good sense, predictability and rational thinking. They were chosen for their companionship, silliness and loving nature. They don't want your pet to change, they just want to protect them as they are.

To learn more, visit the website vetschoice.net.au, or call 1800 999 738 today.

VetTech Australia

Virbac Australia Pty Ltd

Stand: 134, 136

Locked Bag 111 , Wetherill Park, NSW 1851

Tel: 0297729774

Email: michelle.murdoch@virbac.com.au

Website: www.virbac.com.au

Contact: Dr Michelle Murdoch

Virbac is the largest independent company worldwide exclusively dedicated to animal health and proud to support the Australian veterinary profession and pet owners.

In 2021, Virbac launched STELFONTA, a breakthrough injectable non-surgical solution for mast cell tumours (MCTs) in dogs. STELFONTA is a targeted intratumoural treatment and a single treatment destroys the mast cell tumour completely in 75% of observed cases and 87% of tumours with up to two treatments. STELFONTA® contains tigilanol tiglate, a biologically active pharmaceutical compound extracted from the seed of the native Australian blushwood (*Fontainea picosperma*) tree.

Come and our visit stand, to learn about STELFONTA and how it can change the way you treat MCTs. There will be a competition

and staff with commercial and technical expertise will be available to show you new products and discuss how we can work with you to build your business with our range of products and services.

Tel: 0434 319 830

Email: megan.lui@zoetis.com

Website: www.zoetis.com.au

Contact: Dr Megan Lui

As the world's leading animal health company, Zoetis is driven by a singular purpose: to nurture our world and humankind by advancing care for animals. After 70 years innovating ways to predict, prevent, detect, and treat animal illness, Zoetis continues to stand by those raising and caring for animals worldwide – from livestock farmers to veterinarians and pet owners. The company's leading portfolio and pipeline of medicines, vaccines, diagnostics and technologies make a difference in over 100 countries. A Fortune 500 company, Zoetis generated revenue of \$7.8 billion in 2021 with approximately 12,100 employees. For more information, visit www.zoetis.com. Zoetis is proud to launch Solensia® (frunevetmab) for the alleviation of osteoarthritis (OA) pain in cats. It works differently from current treatment options, by targeting Nerve Growth Factor (NGF), a key player in OA pain. Come visit us at the Zoetis stand in the Exhibitor Hall to hear more.

Australia's Most Widely Used Anaesthesia & Analgesia Family

and sample volume processing

Eiken VET SAA

Serum Amyloid A (SAA) assay
for multispecies

Contact ELITechGroup: 1800 815 098

elitechaustralia@elitechgroup.com

DISCOVER A LOT IN YOUR LAB WITH ONE UNIQUE ITEM

VET-SAA 'Eiken'™

For general biochemical analyzers
With reactivity to Equine, Feline, Canine,
Rabbits and Cattle...

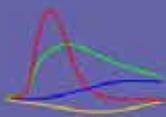

Why New Eiken Serum Amyloid A Assay?

VET-SAA 'Eiken'™ is a veterinary use reagent to measure serum amyloid A (SAA), one of the acute phase proteins (APP), of multiple species. SAA levels shortly increase in response to inflammation and decrease as inflammation is resolved in many species. Recently, SAA testing has been used for health assessment, diagnosis, and prognosis. VET-SAA strongly supports veterinarians and researchers who care for various species and strive for new discovery of APPs implementation.

Designed to react with SAA proteins of multispecies, which offers innovation and practicality.

SAA proteins are known to be encoded in an intimately related genes and have been evolutionally conserved among a wide range of vertebrate species. VET-SAA antibodies are selected to bind with common structural sites between species through repeated reactivity testing by researchers.

Trials of unique VET-SAA & share your experience?

If you are interested in...

- Using new SAA assay
- Offering SAA as an item of routine testing
- Installing SAA on the analyzer currently in use

Please contact us if you are interested in collaboration with us!

EIKEN CHEMICAL CO.,LTD.

In vitro diagnostics manufacturer with 83 years history. We have developed and sold human CRP assay since 1967 and human SAA assay since 1994. In 2019, the new SAA assay was developed under expert guidance to meet the needs on high sensitivity with multispecies SAA.
