

Are you an employed or locum veterinarian?

Please do this survey: (employers – please ask your employees to participate)

We are investigating how the level of your expectations (perceived or promised) and your experience concerning pay and workplace conditions relate to your intentions to stay in the position.

The questions were arrived at with employed veterinarians including recent graduates and final year veterinary students. They include a broad range of topics covering pay, conditions, respect, team factors and more.

Veterinary job characteristics: expectations, promises, reality, and job satisfaction.

This research is being conducted by a veterinarian for veterinarians.

Please scan this QR code for more detailed information about the study and to participate.
