Bain Fallon Memorial Lectures, Sunday 19 - Friday 24 July 2015

Bain Fallon Equine Nurses Conference, Wednesday 22 - Thursday 23 July 2015

"Shoeing For Performance" Farriers Conference, Friday 24 - Saturday 25 July 2015
KEY POINTS:

1. Synergistic combination sulfadimidine/trimethoprim
2. Combination sulfadimidine/trimethoprim potentiates antimicrobial activity
3. Readily absorbed from gastro-intestinal tract
4. Widely distributed to all body tissues and fluids
5. Therapeutic plasma levels rapidly attained
6. Wide spectrum of activity gram – ve & gram + ve
7. Bactericidal (either agent alone bacteriostatic)

Australian Developed  Australian Researched  Australian Manufactured
The Quality you expect  The Efficacy you demand  The Value you have come to expect

Thanks from Conference Convenor, Dr Cristy Secombe

Welcome to the 37th Bain Fallon Memorial Lectures at the Crowne Plaza in the beautiful Hunter Valley. Once again there is a huge amount of continuing education on offer this year, internationally recognised keynote speakers, an array of excellent local speakers, the expanded collaborative clinical abstracts session, the nurse’s stream, the farrier’s stream and workshop. We hope that you will enjoy the week, both from a CE and a social perspective. As always delivery of an event like this requires a huge amount of work and dedication and I would like to thank the education subcommittee, executive and the team at EVA and AVA for all of their effort and enthusiasm.

Dr Cristy Secombe
Education Chair, Equine Veterinarians Australia
Welcome from EVA President Dr Nathan Anthony

On behalf of the EVA Executive Committee, I would like to welcome you to the 37th Annual Bain Fallon Memorial Lectures, to be held at the Crowne Plaza Resort in the Hunter Valley, Sunday 19 – Friday 24 July, 2015.

The EVA Executive and its Education Subcommittee are the driving force behind the Bain Fallon, along with a generous group of former Executive members and experienced veterinarians, who put in many volunteer hours every year to make the Bain Fallon the incredible experience that it is! The Bain Fallon is unlike many other veterinary conferences around the world. It has a high quality scientific content, and increasing streaming options with the “How To” and “Focus on” Sessions, and ‘Twilight Tutorials.’ After the great success of the initiative launched in 2014, EVA will once again present cutting-edge papers in ‘Research and Clinical Paper Sunday’ in a session devoted to this on Sunday 19 July.

Our location this year sees us return to the Crowne Plaza in the Hunter Valley, which was the location for our wonderfully successful 2010 Bain Fallon. Being central to so many equine veterinarians, the Hunter is a natural location for the Bain Fallon. With world renowned stud farms, the Hunter has long been a centre for the bloodstock industry. Coupled with Australia’s most historic winemaking region, the Hunter boasts iconic vineyards to visit, great restaurants to dine in, scenic drives to enjoy, excellent accommodation options and well timed travel connections. Being close to Newcastle and Sydney, the Hunter Valley has it all.

The Bain Fallon is famous for delivering cutting-edge professional development, practical workshops, and tutorial sessions, and this year will be no exception. EVA is delighted to welcome our brilliant keynote speakers Dr Stefania Bucca from Qatar (Reproduction) and Dr Amy Rucker from the USA (Podiatry and Lameness) who, together with our Australian keynotes Dr Jane Axon (Foal Medicine) and Dr Angus Adkins (Foal Surgery), will lead five days of the highest quality equine veterinary science available anywhere in the world.

Streaming became a highly valued feature of Bain Fallon last year and we continue that success this year with punchy and practical sessions in the “Focus On” and “How To” streams, and the ever popular ‘Twilight Tutorials.’ The EVA Wealth and Wellness Stream continues in 2015 and we share some secrets on making social media work for your business.

EVA welcomes back two of our largest stakeholder groups as we present the Bain Fallon Equine Nurses Conference and the “Shoeing for Performance” EVA Farriers Workshop. The first day of the Farriers Conference is a shared session with veterinarians, which has proved so highly popular in past years.

With over 42 exhibitors, the industry exhibition is the largest in the Southern Hemisphere dedicated to the needs of the equine veterinary practitioner, providing an excellent opportunity to view the full range of equipment and supplies available and to ensure you purchase at the best prices. Very special thanks must go to our Bain Fallon Sponsors. We would not be able to deliver the conference without your superb support. Our highly valued sponsors are: Platinum sponsor and EVA Education Partner Provet, as well as Gold sponsor Troy. The Bain Fallon Scholarships Sponsor Jurox and the Proceedings and Young Member Dinner Sponsor Zoetis. We welcome our new Silver Sponsors Miatech and Randlab and as Bronze sponsors Vepalabs and SilverGlide. We welcome back our colleagues at the Australian and New Zealand College of Veterinary Science as the Twilight Tutorial sponsors and thank our social program sponsors CEVA for the Casual Dinner, and new in 2015 are Randlab as the Poolside BBQ sponsor, and 4CYTE as the Bain Fallon Gala Dinner sponsor. The Nurses Conference is sponsored by Provet once again. ‘Shoeing for Performance’ would not be possible without the sponsorship support of Mustad Australia for shoes and farriers hardware and DLC Australia in imaging equipment. The Equine Podiatry & Lameness Centre at Scone is also sponsoring this part of the Conference.

The social activities that form an integral part of each Bain Fallon Memorial Lecture week have not been forgotten. This year’s social program offers Welcome Drinks on the Sunday night, the Industry Evening on the Monday, the Casual Dinner on the Tuesday, the Young Member Dinner, Equine Nurses Dinner and a casual poolside BBQ on the Wednesday. Thursday is the Bain Fallon Gala Dinner, and there are Happy Hours on the Monday and Tuesday. Golf on Wednesday afternoon is a time-honoured tradition at Bain Fallon, and the Crowne Plaza has its own course. Bain Fallon is renowned for its social ethos and culture – it has managed to create, renew, enhance, and solidify friendships amongst veterinarians from all over Australia and the world.

I am looking forward to making you welcome at this year’s Bain Fallon, where you are guaranteed a full week of excellent continuing education, collegiality and fellowship.

EVA Education Subcommittee

Dr Criusty Secombe, Education Chair
Dr Kirsten Neil Dr Jane Axon
Dr Christine Smith Dr Angus Adkins

Dr Susan Beets Dr Tori McGuire

Dr Nathan Anthony
President, Equine Veterinarians Australia
About the Bain Fallon Memorial Lectures

The Bain Fallon Memorial Lectures continues to be the best week of equine veterinary continuing education in the Southern Hemisphere, attracting over 200 delegates each year. Featuring concurrent streams of practical clinical sessions, Bain Fallon gives you the opportunity to participate in world-class lectures and thought provoking discussions.

Bain Fallon boasts an industry exhibition comprising over 42 exhibitors, providing you direct access to industry suppliers and enabling you to experience their latest innovations, services and products first hand.

But it’s not all work! The social events at Bain Fallon are a highlight of the conference, and provide perfect opportunities for you to network with your peers, suppliers and fellow industry professionals.

About Equine Veterinarians Australia

Equine Veterinarians Australia (EVA) is the representative body for equine veterinarians in Australia, offering membership to veterinarians who treat horses as part of their practice. A special interest group of the Australian Veterinary Association, EVA was formed in 1971 to meet the needs of members and to act as a representative body for the interests of equine veterinarians within the Australian horse industry. EVA also advises upon horse health issues as an active stakeholder in the equine industry. The key objectives of EVA are to elevate equine veterinary standards to further research and knowledge of equine diseases, deliver postgraduate equine veterinary continuing education and to promote its members as providers of the very best quality care for their equine patients. For more information or to become a member of EVA, visit www.ava.com.au/equine.

“Shoeing for Performance” Farriers Conference
General information

The Crowne Plaza Hunter Valley
430 Wine Country Drive, Lovedale NSW 2325  P: (02) 4991 0000  W: www.crowneplazahuntervalley.com.au
General information

_Bain Fallon Memorial Lectures_ sessions will be held in Semillon Rooms 1, 2 and 3. See page 17 for full details.

_Bain Fallon Equine Nurses Conference_ lecture sessions will be held in Exhibition Centre / Pre-Function Area. See page 23 for full details.

_“Shoeing for Performance” Farriers Conference_ lectures will be held in Semillon Rooms 1, 2 and 3. See page 27 for full details.

The Bain Fallon Industry Exhibition and meal breaks throughout the Conference will be held in the Conference and Events Centre on the Ground Floor.

_Restaurants_ - There are a number of dining options at the Crowne Plaza Hunter Valley, including award-winning restaurant Redsalt, the Lovedale Bar and Restaurant, and the Lovedale Brewery. For more information, contact the Crowne Plaza on (02) 4991 0000.

_Tea Tree Spa_ - Take the chance to unwind at the Crowne Plaza’s opulent Tea Tree Spa. Bookings are essential. For more information, contact the Crowne Plaza on (02) 4991 0000.

_Bar_ - Come and relax after Happy Hours and social events in the Lovedale Bar, Bain Fallon’s official bar at the Crowne Plaza Hunter Valley.

_Badges and tickets_

As a security requirement, please wear your name badge at all times to access lectures, the Industry Exhibition, and catering.

Tickets are a requirement for the Casual Dinner (Tuesday), the Young Members Dinner (Wednesday), the Equine Nurses Dinner (Wednesday), the Bain Fallon ‘Masquerade’ Gala Dinner (Thursday) and the Farriers Dinner (Friday), and all breakfast sessions. Please check you have all your tickets when collecting your name badge and satchel. Additional tickets may be purchased from the Registration desk, subject to availability.

_Banking_

The closest ATM is located at reception level, Crowne Plaza Hunter Valley (behind the Concierge desk).

Banking hours are usually 9.00am-3.30pm Monday to Thursday and 9.00am-5.00pm on Fridays. The nearest banks are in Vincent Street, Cessnock.

_Catering_

Morning and afternoon tea, lunches and Happy Hour catering is provided in the Industry Exhibition unless otherwise specified. Please see the full program from page 17 for full details.

_Childcare facilities_

There are no childcare facilities available onsite on weekdays. Kids Club is open for 2 sessions on the weekend from 9:00am - 12:00pm, and 1:00pm - 3:00pm. Kids Club is available from $15.00 per session, and pre-bookings are essential. Please contact the Crowne Plaza on (02) 4991 0000 for more information.

Local babysitting service Red Zebra are able to be privately booked, and they can send out sitters to mind children in your room or villa at the Crowne Plaza if required. For more information or to book with Red Zebra, please contact Bev Farley on 0419 411 636, or email bev@redzabra.net.au
General information

**Coach transfers**

See below for the full list of coach transfers during the Conference week. If you would like to book your transfer and have not already done so, please visit the registration desk early in the week.

### Sunday 19 July

- Sydney Airport to Crowne Plaza
  - Departing 9:30am, Sunday 19 July
  - $60 each
- Newcastle Airport to Crowne Plaza
  - Departing 11:30am, Sunday 19 July
  - $25 each

### Tuesday 21 July

- Newcastle Airport to Crowne Plaza
  - Departing 2:30pm, Tuesday 21 July
  - $25 each
- Casual Dinner coach transfer
  - Crowne Plaza to Lindemans, return
  - Departing 7:00pm, Tuesday 21 July
  - Included with Casual Dinner ticket

### Wednesday 22 July

- Equine Nurses Conference Stud Tour
  - Departing 1:45pm, Wednesday 22 July
  - Included with Nurses registration
- Young Member Dinner coach transfer
  - Crowne Plaza to The Royal Oak, return
  - Departing 7:00pm, Wednesday 22 July
  - Included with YMG Dinner ticket

### Friday 24 July

- Crowne Plaza to Newcastle Airport
  - Departing 9:30am, Friday 24 July
  - $25 per ticket
- Farriers Dinner coach transfer
  - Crowne Plaza to Harrigans, return
  - Departing 7:00pm, Friday 24 July
  - Included with Farrier Dinner ticket

### Saturday 25 July

- Crowne Plaza to Newcastle Airport
  - Departing 6:00am, Saturday 25 July
  - $25 per ticket
- Practical Workshop coach transfer
  - Muswellbrook Racecourse, return
  - Departing 7:30am, Saturday 25 July
  - Included with Workshop registration

### Sunday 26 July

- Crowne Plaza to Newcastle Airport
  - Departing 6:45am, Sunday 26 July
  - $25 per ticket

**EVA / AVA Staff onsite during the Bain Fallon week**

Jeffrey Wilkinson, Executive Officer (EVA)
Kandy Musgrave, National Events Manager (AVA)
Lucy Rhodes, Events Coordinator (AVA)
Claudia Hunt, Administration (EVA)

**Internet and wi-fi**

High-speed internet access is available throughout the Crowne Plaza, and can be purchased from the hotel reception at $18.95 per 24 hours.

Complimentary internet access is offered to guests on the Hotel Business Centre computers. Alternatively, complimentary wi-fi is available for IHG Rewards Club Members; this Rewards Club is free to join. For more information, visit www.ihg.com/rewardsclub/gb/en/join/register

Passport competition

Visit our exhibitors’ trade stands in the Industry Exhibition to learn more about their products. While you’re there, don’t forget to get your passport stamped, and go in the draw to win some great prizes.

Place your entries in the barrel at the Troy Laboratories stand (19 and 20) by 10:30am on Thursday 23 July to go in the draw. Winners’ names will be posted on the message board.

Poster competition

Please submit posters for judging to the registration desk by 4:00pm on Sunday 19 July.

Posters will be on display outside the Industry Exhibition throughout the Conference. Judging will take place during Happy Hour (5:30 - 6:30 pm) on Monday 20 July. Entrants are reminded that at least one author must be present during this time to discuss their submission with the judging panel. Winners will be announced at the Bain Fallon Gala Dinner, on Thursday 23 July.
General information

**VetEd and CPD points**

To have your VetEd points automatically allocated, your AVA Number must be provided when you register. Please visit the Registration desk to have your number recorded if it was not provided at the time of registration.

### Key dates

#### Bain Fallon Memorial Lectures, Sunday 19 - Friday 24 July 2015

- **Sunday 19 July**: Combined EVA / ANZCVS Research and Clinical Papers from 1:00pm, followed by Bain Fallon Welcome Drinks in the Industry Exhibition from 6:00pm
  
  **Please submit posters for judging to the registration desk by 4:00pm**

- **Monday 20 July**: Bain Fallon Memorial Lectures, followed by the Industry Evening in the Industry Exhibition

- **Tuesday 21 July**: Bain Fallon Memorial Lectures, followed by Casual Dinner at Lindemans Wines, Pokolbin

- **Wednesday 22 July**: Bain Fallon Memorial Lectures including Twilight Tutorials, followed by the Young Member Dinner at the Royal Oaks Hotel, Cessnock and Randlab’s Great Big BBQ at the Crowne Plaza Hunter Valley

- **Thursday 23 July**: Bain Fallon Memorial Lectures, followed by the Bain Fallon Gala Masquerade Dinner at the Crowne Plaza Hunter Valley

- **Friday 24 July**: “Shoeing for Performance” Lecture Series at the Crowne Plaza Hunter Valley

#### Bain Fallon Equine Nurses Conference, Wednesday 22 and Thursday 23 July

- **Wednesday 22 July**: Equine Nurses Conference, followed by the Nurses Dinner @ Crowne Plaza Hunter Valley

- **Thursday 23 July**: Equine Nurses Conference, followed by the Bain Fallon Gala Dinner @ Crowne Plaza Hunter Valley

#### “Shoeing For Performance” Farriers Conference, Friday 24 and Saturday 25 July

- **Friday 24 July**: “Shoeing for Performance” Lecture Series @ Crowne Plaza Hunter Valley, followed by the Farriers Dinner at Harrigans Irish Pub, Pokolbin

- **Saturday 25 July**: “Shoeing for Performance” Farriers Workshop @ Muswellbrook Racecourse
PROUD TO SPONSOR
THE BAIN FALLON YOUNG MEMBERS SCHOLARSHIP AGAIN IN 2015

For the eighth consecutive year, Jurox is pleased to join with EVA in supporting the education of talented young equine veterinarians. Jurox is committed to the equine veterinary industry, producing high quality veterinary medications, and helping to produce high quality equine practitioners.

Australian Made Australian Owned
Sponsored Industry Breakfast Sessions

Program subject to change at the discretion of the Education Subcommittee. All sessions held in Exhibition Centre / Pre-Function Area unless specified.

**Tuesday morning, 7:00-7:45am**
The management of PPID – monitoring cases and how to deal with those horses that don’t read the rule book

Proudly sponsored by Boehringer Ingelheim

The focus of the talk will be “What to do when horses don’t read the PPID rule book” – Diagnosing PPID in a horse with obvious clinical signs is often straightforward, especially when they respond to treatment as expected. This presentation will provide some options on how to deal with those challenging cases where test results may be inconclusive or the response to therapy is not as expected.

Visit also www.talkaboutlaminitis.com.au - a disease awareness initiative by Boehringer Ingelheim to improve understanding of underlying endocrine causes of laminitis.

*Presented by:* Dr Cristy Secombe, Senior Lecturer and Registered Specialist in Equine Medicine, Murdoch University.

**Wednesday morning, 7:00-7:45am**
“But it costs more than bute!” - A review of the science behind the use of meloxicam in horses and foals.

Proudly sponsored by Troy Laboratories Australia Pty Ltd

As veterinarians we have a responsibility to our clients to advise them wisely, to our patients to provide the best possible care and to ourselves to do a job we are proud of and to earn a living to support us and families. In the maelstrom that can be practice, it is hard to find time to sit and review information and papers on topics. Non-steroidal anti-inflammatory drugs are a mainstay of equine anti-inflammatory medication yet their actions remain, in many ways, poorly understood. The purpose of the session is to outline the available literature on the use of meloxicam in horses, contrast its actions with other available alternatives and highlight areas where its use is of potential benefit in our day-to-day practice.

We hope you can come and join me and the Troy Laboratories team for an excellent breakfast, accompanied by a touch of science!

*Presented by:* Dr Alec Jorgensen BVSc Cert EP Dipl. ABVP Eq, Hamilton Veterinary Services

**Thursday morning, 7:00-7:45am**
Performance or pet? - Working with owners to deliver horse health plans

Proudly sponsored by Zoetis Australia

“The number one reason why a client changes veterinarians is because they did not like the communication style, personality or demeanour of the veterinarian.” (AAEP Survey, 2013)

While equine veterinarians have traditionally built strong partnerships with large stud and high performance clients, there is a large group of ‘pet’ horse owners who feel neglected by their veterinarian. Explore how you can best meet the needs of this large group, and add value to the ‘pet’ horse owners in your practice. Look at how preventative care can build stronger client relationships and build your business.

*Presented by:* Dr Maria Neale, Zoetis Australia
Bain Fallon Memorial Lectures keynotes

**Dr Stefania Bucca DVM (Reproduction)**

Dr Stefania Bucca qualified at the University School of Veterinary Medicine Torino, Italy, in 1977. She practiced for 18 years in Ireland as resident veterinarian for two large thoroughbred stud farms, Airlie Stud and Rathbarry Stud, shuttling to the Southern Hemisphere for six additional breeding seasons. Stefania returned to Italy to undertake a clinical research study on feto placental well being, while working on a standardbred farm from 1996 to 1998. The research study was partly funded by Irish funds and was run in conjunction with the Irish Equine Centre. She returned to Ireland in 2005, first as a reproductive consultant for the Irish Equine Centre before joining the veterinary staff at Somerton Equine Hospital, opening a new equine reproductive facility and referral centre, including an SBS affiliated (SBS Ireland) stallion centre. Stefania is an author of several articles and book chapters with main interests in equine reproduction, physiopathology of the equine pregnancy, ultrasonography and neonatology.

**Presentations:**
- Ultrasound evaluation of the equine pregnancy, and identification of ‘high risk’ conditions, Monday 8:00am - 9:00am
- Doppler velocimetry parameters of the equine pregnancy: Practical applications of a new tool, Monday 3:30pm - 4:30pm
- Fetal gender determination in early and advanced gestation: More than just a genital tubercle, Tuesday 10:45am - 11:45am
- Placental pathology: Where does it all start?, Wednesday 8:00am - 9:00am
- Treatment and management of cervical incompetence in the pregnant and non-pregnant mare, Wednesday 11:45am - 12:45pm
- Management strategies for the high risk pregnancy, Thursday 9:00am - 10:00am
- Assessing the mare for breeding: Those warning signs we would like to ignore, Thursday 1:45pm - 2:45pm

**Dr Amy Rucker DVM (Podiatry and Lameness)**

For those of you interested in equine podiatry and lameness, Dr Amy Rucker needs no introduction. A graduate of the University of Missouri-Columbia and having worked for a number of prominent veterinary practices internationally (including a stint as Consulting Veterinarian at the Equine Podiatry and Lameness Centre in New South Wales), Dr Rucker was inducted into the International Equine Veterinarian Hall of Fame in 2012. Dr Rucker brings with her a wealth of knowledge and expertise on podiatry and lameness issues in horses.

**Presentations:**
- Pathology of the foot: From abscess to injury, Wednesday 9:00am - 10:00am
- Anatomy of the foot in relationship to radiographic parameters, Thursday 8:00am - 9:00am
- Radiographing the foot: Tricks to taking the perfect shot, Thursday 11:45am - 12:45pm
- The digital venogram: Performance and interpretation, Friday 8:30am - 9:30am
- Shoing the laminitic horse, Friday 12:00pm - 1:00pm
- Shoe selection for the lame performance horse, Friday 2:45pm - 3:45pm

**Dr Angus Adkins BVSc FACVSc (Foal Surgery)**

Dr Angus Adkins graduated from the University of Melbourne in 1989. He worked in a racetrack practice at Flemington, Victoria, for four years before undertaking a residence in Equine Surgery at Murdoch University. Angus moved to Scone Equine Hospital in 1997, passed his Equine Surgical Fellowship of the ANZCVS in 2002 and is currently the Head of Equine Surgery at the hospital. Angus has been a guest speaker at major veterinary conferences in England, Germany, Belgium, Hong Kong, Dubai and Australia; and has been an author for over 20 publications in peer-reviewed journals. He has been an examiner for Membership and Fellowship of the ANZCVS, a Chairman of the Equine Chapter and a long-serving member of the credential committee. He currently sits on the Education Subcommittee of the EVA, for which he is also Treasurer. Angus is a nominated veterinarian for the Hong Kong Jockey Club and his surgical interests are largely represented by the topics he will present on this week.

**Presentations:**
- Lameness in foals, Monday 9:00am - 10:00am
- Laparoscopy, Monday 1:45pm - 2:45pm
- Septic arthritis / osteomyelitis in foals, Tuesday 8:00am - 9:00am
- Surgical emergencies of the abdominal and thoracic cavities in foals, Tuesday 1:45pm - 2:45pm
- Limb conformation and corrective procedures: Angular limb deformities, Friday 9:30am - 10:30am
- Limb conformation and corrective procedures: Flexural limb deformities, Friday 4:15pm - 5:15pm
Bain Fallon Memorial Lectures keynotes

**Dr Jane Axon BVSc MANZCVS DACVIM CMAVA (Foal Medicine)**

A member of the EVA Education Sub-Committee, Dr Jane Axon graduated from the University of Queensland in 1985 and subsequently worked in mixed practice in South Australia, in equine practices at the Goulburn Valley Equine Hospital and with Ross Teitcel and associates at Flemington. In 1998, Dr Axon completed a residency in Large Animal Internal Medicine at the University of Pennsylvania’s New Bolton Centre, continuing as a lecturer in Equine Medicine and Critical Care. Dr Axon returned to Australia in 1999, to take up a position as Director and Senior Veterinarian at the Scone Equine Hospital’s Clovelly Intensive Care Unit. She is a member of the Australian and New Zealand College of Veterinary Scientists in Equine Medicine and has American board certification in Large Animal Internal Medicine. Regularly lecturing at both local and international veterinary events and author of numerous book chapters and articles, Dr Axon’s special interests include perineonatology, emergency critical care, ultrasonography and teaching.

**Presentations:**

- **Initial assessment of the critically ill neonate**, Monday 10:45am - 11:45am
- **Gastrointestinal disease in foals**, Monday 4:30pm - 5:30pm
- **Treatment of the critically ill neonate**, Tuesday 9:00am - 10:00am
- **Ultrasound examination of the foal**, Wednesday 10:45am - 11:45am
- **Abdominal pain in the foal**, Thursday 10:45am - 11:45am

**Pascoe Orator for 2015**

**Dr Deborah Middleton**

Dr Deborah Middleton is a veterinary graduate of The University of Sydney, has a PhD in Veterinary Pathology and has over 30 years of experience in the diagnostic and experimental pathology of diseases of livestock, companion animals and wildlife. After commencing her career in teaching and research at The University of Sydney, she moved to Utrecht University followed by an eight-year stint at the Hawkshead Campus of The Royal Veterinary College, University of London. There, the equine referral hospital provided a steady and varied source of material on which she was able to hone her skills in the post-mortem examination of the horse.

Dr Middleton then returned to Australia (where the water is warmer and all the beaches have sand) to take up an academic post in the Veterinary Pathology Department of The University of Melbourne. Currently, she leads the development of animal infection models for emerging zoonotic diseases at the CSIRO Australian Animal Health Laboratory – a specialised Biosafety Level 3 and 4 containment facility in Geelong, Victoria. Particular research interests of this group include emerging zoonotic diseases such as those caused by Highly Pathogenic Avian Influenza, Hendra and Nipah viruses, MERS, Ebolavirus, other bat-borne viruses, and host-pathogen relationships where there is a high level of co-evolution.

**About the Pascoe Oration**

Kindly supported by Provet, and named in honour of founding EVA Member Professor Reginald Pascoe, the Pascoe Oration is an opportunity for a luminary of the profession to address the plenary on a topic of their choice. Join us on Tuesday from 11:45am for what is sure to be a fascinating presentation by renowned CSIRO researcher Dr Deborah Middleton.
IT’S TIME TO STAND UP TO INFECTIOUS DISEASES

Vaccination against infections is a crucial component of your horse’s overall preventative care program. That’s why we’re encouraging all horse owners to take a stand against infection during Vaccination Month.

Preventative care helps keep horses safe. Ask your vet about vaccination now!
Program subject to change at the discretion of the Education Subcommittee.
All sessions held in *Semillon Room 3* unless specified.

HELLER RASPS
REACH FOR TRADITION

eXcel ORIGINAL

• 10% WIDER YET LIGHT AND BALANCED
• LARGER WORKING SURFACE FOR IMPROVED LEVELING, EFFICIENCY AND CONTROL
• COARSE SIDE TEETH EXTENDED TO THE EDGES FOR RASPING IN CLIPS
• MORE TEETH PER SQUARE CM THAN OUR STANDARD RASPS
• POSITIVE RESULTS IN A VARIETY OF CONDITIONS
The innovative therapeutic technique of MLS® Laser Therapy validated by the American FDA and patented in Italy and in the USA, has shown its effectiveness in improving the quality of life and the motion of the horse and its owner: two bodies which through their muscles communicate and respond to one another in order to create the perfect couple. This perfect couple may only arise from two perfectly healthy bodies.

**The Guarantee of optimal results**

1. Synergy and strengthening of the anti-inflammatory, analgesic, anti-edema effects
2. Rapid reduction of pain
3. Rapid healing of superficial lesions (wounds, sores)
4. Rapid recoup of the structural integrity of damaged tissue
5. Improvement of local blood circulation
6. Improvement in quality of life of the animal and its owner
7. Short treatment length and with courses lasting few sessions

**For the treatment of several conditions**

» Arthritis
» Back pain
» Bursitis/Synovitis
» Edema/Hematoma
» Epiphysitis
» Laminitis (acute and chronic)
» Muscle contracture
» Navicular disease
» Osteoarthritis
» Osteoperiostitis (acute and chronic)
» Pain (acute and chronic)
» Sacroiliac subluxation
» Sprain/Strain
» Tendinitis/Desmitis (acute and chronic)
» Trigger point
» Wound

“Shoeing for Performance” Farriers Conference kindly sponsored by
“Shoeing for Performance” Farriers Conference speakers

Dr Amy Rucker DVM

For those of you interested in equine podiatry and lameness, Dr Amy Rucker needs no introduction. A graduate of the University of Missouri-Columbia and having worked for a number of prominent veterinary practices internationally (including a stint as Consulting Veterinarian at the Equine Podiatry and Lameness Centre in New South Wales), Dr Rucker was inducted into the International Equine Veterinarian Hall of Fame in 2012. Dr Rucker brings with her a wealth of knowledge and expertise on podiatry and lameness issues in horses.

Dr Angus Adkins BVSc FACVSc

Dr Angus Adkins graduated from the University of Melbourne in 1989. He worked in a racetrack practice at Flemington, Victoria, for four years before undertaking a residence in Equine Surgery at Murdoch University. Angus moved to Scone Equine Hospital in 1997, passed his Equine Surgical Fellowship of the ANZCVS in 2002 and is currently the Head of Equine Surgery at the hospital. Angus has been a guest speaker at major veterinary conferences in England, Germany, Belgium, Hong Kong, Dubai and Australia; and has been an author for over 20 publications in peer-reviewed journals. He has been an examiner for Membership and Fellowship of the ANZCVS, a Chairman of the Equine Chapter and a long-serving member of the credential committee. He currently sits on the Education Subcommittee of the EVA, for which he is also Treasurer. Angus is a nominated veterinarian for the Hong Kong Jockey Club and his surgical interests are largely represented by the topics he will present on this week.

Dr Luke Wells-Smith BVSc (AUS)

Dr Luke Wells-Smith graduated from his TAFE Farriery Course in South Australia in 2004, and started his own business as a farrier while completing his Veterinary Science degree. He graduated as a veterinarian from James Cook University in 2010, since which time he has spent time in Australia and the United States working with and visiting veterinarians and farriers in podiatry and lameness practice. Dr Wells-Smith’s research interests include the biomechanics of therapeutic horse shoes, hoof conformation of Thoroughbred yearlings, and laminitis in broodmares.

Wayne “Link” Baumann (AUS)

Wayne “Link” Baumann has been shoeing horses for 30 years. In the early 1990s, Link undertook his apprenticeship with legendary Hunter Valley farrier, Billy Neville. After completing his trade qualifications, he started his own farriery business servicing the studs and performance horses of the Hunter Valley. Link is dedicated to understanding the art and science of equine podiatry and lameness, and to passing this knowledge on to horse owners, farriers and veterinarians. Link’s interest in managing laminitis cases and complicated lameness conditions has resulted in regular trips to the United States to attend seminars, the Kentucky Laminitis Symposium and the American Farriers Association Convention, to further his knowledge and training in these areas. “Link” has competed regularly in farriery competitions and, in 1996, was successful in winning the Australian Farriery Championships. This success took him to the Calgary Stampede later that year to compete at the World Farriery Championships.
WE UNDERSTAND: NO FOOT – NO HORSE

Our team of farriers, veterinarians and specialist equine surgeons work together to combine the art of farriery with the knowledge and diagnostic tools of veterinary science to treat and manage foot related lameness conditions.

Our strong links with manufacturers who are the leaders in the field of therapeutic hoof care products allows us access to the latest technology and the information and research which has led to its development.

Our Podiatry and Lameness team work closely with referring veterinarians and farriers to tailor individual treatment plans to assist you in managing your clients and patients.

Talk to our team about designing solutions for your patient’s lameness and podiatry conditions or about our suppliers products.

Our relationship with Scone Equine Hospital and its specialists in internal medicine and surgery means that our team is at the leading edge of veterinary information regarding foot conditions and foot-related lameness.

Call us to talk about how we can help you find podiatry solutions for your clients and patients.
For a longer, more active riding future joint health is critical.

WAY ACTION

The Pentosan range delivers proven results for your clients

Take advantage of the Ceva horse owner promotion for your clinic.

Ceva is rewarding new clients with a bonus Coles/Myer gift card plus your clinic could be eligible for bonus stock offers on the full Pentosan range.*

To find out more, call your Sales Representative or customer service on 02 9652 7000.

Offer available until 31 August 2015

Cost of annual treatment regimen using Pentosan Equine compared to oral supplements¹

For clients on a budget, Pentosan Equine delivers proven results at an affordable price.

Bain Fallon Equine Nurses Dinner, sponsored by Provet

**Wednesday 23 July, 7:30 - 11:00pm**
Semillon Room 3, Crowne Plaza Hunter Valley

Kindly sponsored by Provet, join us for the exclusive Equine Nurses Dinner at the Crowne Plaza Hunter Valley on the Wednesday night. Guest speaker Maryann Dalton will present on her work with Vets Beyond Borders, and the inaugural EVA Excellence in Equine Nurses Award will be presented by EVA President Dr Nathan Anthony on the night.

**About our guest speaker**

Maryann Dalton is currently the Chief Executive Officer of Vets Beyond Border, an Australian-based, not-for-profit, organisation established by a group of likeminded veterinary volunteers in 2003. Vets Beyond Borders co-ordinates and runs veterinary based animal and public health programs in developing communities of the Asia and Pacific region. Maryann is also the current Operations Manager of the Pet Industry Association of Australia, and has previously worked with a number of not-for-profit organisations including the Animal Welfare League (NSW), Guides Australia, and the Multiple Sclerosis Society of NSW. Maryann has a Masters degree in Community Management, majoring in volunteerism, and a passion for animal welfare, where she is actively involved in public education in matters of conservation, care and management.

What Veterinarians Think

“In 2012, due to the high level of research supporting 4CYTE™ Equine, we began trialling it in a number of performance horses with a variety of lameness issues relating to joints. The response to 4CYTE™ Equine was significant, taking in some cases from as little as 1 week to 6 weeks (averaging 2 to 4 weeks) to see a noted improvement and these improvements have continued and been sustained. We now have more than 18 months experience utilising 4CYTE™ Equine and the results are excellent, with horse owners and riders noting improvement in the horses. Used appropriately, 4CYTE™ Equine has genuine disease modifying capabilities and is the only nutraceutical I prescribe. It is incorporated into our clinic treatment protocols for joint related conditions with an annual usage volume in excess of 500kg.”
Dr Ian Fulton, BVSc, MS, FACVSc

“Given its palatability, it’s easy to use formulation and above all its effectiveness, 4CYTE™ Equine is the best joint supplement that I have used on my dressage horses to date. Specifically, I have found it to be invaluable in the management and prevention of joint effusions in young warmbloods in their first year of training.”
Fiona Anderson, BSc BVMS, Amateur Dressage Rider

What Horse Trainers Think

“I’ll have been using 4CYTE™ Equine in a number of my horses after it was introduced to my stable by our veterinarians at Ballarat over 2 years ago. 4CYTE™ Equine was put forward as a joint health supplement with extensive scientific research to back up the product. I use 4CYTE™ Equine in the young horses to aid in preventing the onset of degenerative joint disease. In the older athletes, 4CYTE™ Equine helps maintain joint health and is especially useful following joint surgeries.

The level of scientific research behind 4CYTE™ Equine means what I am giving my horses is actually benefitting them. Many products claim various benefits but few have “in depth” research to back them up as is the case with 4CYTE™ Equine. 4CYTE™ Equine is a part of the daily regime for many of my horses, using it as a prevention against joint disorders as well as a treatment for any horses with signs of joint inflammation. I have no hesitation in recommending 4CYTE™ Equine and congratulate Interpath on this product.”
Darren Weir, Horse Trainer

Bain Fallon Industry Exhibition
Bain Fallon Industry Exhibition

Apscan Pty Ltd

Stand 39

Address 6/17 Chester Street, Camperdown NSW 2050
Telephone + 61 (02) 9516 4422
Email info@apscan.com.au
Website www.apscan.com.au

For more than 20 years, Apscan has supported the veterinary industry with the sale and service of new and second hand veterinary imaging, diagnostic and surgical equipment. We consider our experienced in-house technicians regularly service more veterinary ultrasound machines than in any other Australian company.

Our range of ultrasound systems includes the Honda HS-2100/HS-2200 (with its high quality small animal and equine probes) which we consider to be currently the most popular veterinary ultrasound machine available in Australia. Our product range also includes a large range of refurbished ultrasound systems and new and used ECGs, autoclaves, anaesthetic machines, X-ray machines, blood pressure monitors and a wide range of quality surgical instruments and equipment.

Ausrichter Pty Ltd

Stand 4

Address PO Box 319, Annandale NSW 3043
Telephone + 61 (02) 9517 1166
Email info@ausrichter.com
Website www.ausrichter.com

Ausrichter Animal Health is a 100% Australian owned and operated distributor of veterinary product and was founded by well renowned equine veterinarian Dr Wilhelm Marbach.

Ausrichter distributes a diverse range of prescription and non-prescription products from GMP approved European manufacturers: Richter Pharm, AG Austria CZ Veterinaria, SA Spain Vetoquinol, SA Spain including Butomidor Injection - 10mL & 50mL for Analgesia, Sedation, Tranquilisation. Equisedan Vet - Solution for Injection for predictable reliable sedation. Hippiiron Iron Injection Triprim Anti-Bacterial Injection - Sulfadimidine and Trimethoprim

Ausrichter also owns and distributes a product range from JayDee Laboratories including: DL-Acetyl-Methionine - An effective liver tonic, EnerSelen Injection - A selenium supplement for the prevention and treatment of tying-up, Austrazole - Topical fungicide Enilconazol, PenetreNe’Liniment - Penetrating cooling absorbent for sprains, strains and muscular soreness. Visit us at stand 4 to discuss these and other products in our range.

ARO Systems

Stand 9

Address 3/67 Wigg Street, Wodonga VIC 3690
Telephone + 61 (02) 6059 6664
Email info@arosystems.com.au
Website www.arosystems.com.au

ARO Systems is focused on helping veterinary practices access the latest high quality, vet-specific imaging equipment. With over 20 years of experience in medical technology, our team have the expertise to recommend the perfect solution, to deliver it and the support to ensure it keeps working. We began addressing the needs of vets at a time when the landscape was dominated by adapted medical tools poorly suited for veterinary use.

We are proud to have been part of the early push for vet-specific imaging equipment and continue to help vets modernise their practices and ready themselves into the future. Understanding that each practice has unique technology needs, we work closely with owners and veterinarians to tailor a solution that maximises value for their practices and patients. We offer our clients the best digital imaging solutions available by partnering with industry leaders. This year we’d like to introduce our new partners; Optomed and BMV.

Austvet Endoscopy Pty Ltd

Stand 41

Address 5/14 Lionel Road, Mount Waverley VIC 3149
Telephone + 61 (03) 9543 3991
Email info@austvetendoscopy.com.au
Website www.austvetendoscopy.com.au

Austvet Endoscopy specialises in the widest range of new and reconditioned rigid and flexible Endoscopy equipment and instruments for small animal and equine applications. Owned and run by Ennio and Maria Matutini since 2004 and with over 33 years of experience, we are best able to meet all your veterinary endoscopic needs. We offer quality Endoscopy equipment at affordable prices and are dedicated to providing our customers with unsurpassed levels of service, professional advice and information.

In addition, we have an extensive in-house service and repair facility which covers everything from routine servicing to major and major repairs all at exceptional pricing with quick turnaround time, quality service and on-going training and support.
Bain Fallon Industry Exhibition

BCF Ultrasound

Address: Unit 13/23A Cook Road, Mitcham VIC 3132
Telephone: 1300 798 747
Email: sales@bcfultrasound.com
Website: www.bcfultrasound.com

BCF Ultrasound pride themselves in being industry leaders in veterinary ultrasound solutions. Having the largest range of veterinary ultrasound in Australasia helps them cover all animal applications assisting them in providing the best possible solutions suited to the clinics specific needs. With fully operational service centres situated in Melbourne, Australia and Auckland, New Zealand they offer high quality service and repair to the veterinary industry. Having over 30+ years’ combined experience in the field and focusing specifically on veterinary ultrasound makes specialization one of their core strengths.

BCF Ultrasound are the exclusive distributor of Mindray, Fujifilm SonoSite and BCF Technology products giving them a broad range of offerings. They have also isolated a niche within the market designing and developing products specifically for veterinary applications that are now sold worldwide.

Come and visit us at stand 45.

Boehringer Ingelheim

Address: Level 1, 78 Waterloo Road, North Ryde NSW 2113
Telephone: (02) 8875 8800
Email: animalhealth.au@boehringer-ingelheim.com
Website: www.boehringer-ingelheim.com

At Boehringer Ingelheim our purpose is simply to 'Make More Health' - for patients, our people and our community. For over a century we have remained a family-owned, independent company. Today we employ more than 47,700 people and operate globally through 146 affiliates.

Headquartered in Ingelheim, Germany we practice excellence, innovation and value in the discovery of new medicines and services and are committed to operating as an ethical and sustainable company. We constantly seek new and better ways to treat diseases in people and animals.

In Australia and New Zealand, Boehringer Ingelheim employs around 400 staff in the areas of Prescription Medicine, Consumer Health Care and Animal Health. Our company also owns and manages several Duboisia plantations in Queensland Australia, the leaf of which produces substances used in several of our products.

For more information please visit www.boehringer-ingelheim.com.au and www.boehringer-ingelheim.co.nz

Biopharm Australia Pty Ltd

Address: 111 Bronte Road, Bondi Junction NSW 2022
Telephone: +61 (02) 9389 0000
Email: arthro@ozemail.com.au
Website: www.cartrophen.com

Biopharm Australia pioneered the worldwide veterinary development of sodium pentosan polysulfate as a disease modifying osteoarthritis drug (DMOAD) under the brand Cartrophen.

Cartrophen Equine (100mg/mL) and Cartrophen Equine Forte (250mg/mL) are approved for horses in Australia and NZ, with Cartrophen Equine Forte also approved in the UAE. Cartrophen Vet (100mg/mL) is approved for dogs and horses in Australia, NZ, China and Argentina and for dogs in many countries, including technically demanding jurisdictions like Japan, France, Germany, Sweden and the UK.

The quality of Cartrophen products is assured by its testing laboratories that are National Association of Testing Authorities, Australia (NATA) accredited and Therapeutic Goods Administration (TGA) licensed.

Founded in Australia in the 1980s, Biopharm Australia is a world leader in the research and development of sulfated polysaccharides for use in veterinary medicine and has ongoing research and development commitments in osteoarthritis, musculoskeletal disease and cancer.

BOQ Specialist

Address: Level 23 Chifley Tower, 2 Chifley Square, Sydney NSW 2000
Telephone: 1300 131 141
Email: client.service@boqspecialist.com.au
Website: www.boqspecialist.com.au

BOQ (Bank of Queensland) Specialist delivers distinctive lending and banking products to the veterinary sector. Our team understands your profession inside and out, so you won’t have to explain yourself to someone who doesn’t get it. We aim to add value to and build partnerships with our clients and we have been providing specialist banking in Australia for over 20 years.

Our broad range of personal and business banking options include transactional and savings accounts, credit cards, residential mortgages, practice purchase and fit-out loans, car loans, SMSF loans and property investment loans. Our approach is characterised by responsive personal service, unconventional thinking, and an ability to be nimble, flexible and innovative.

**NEW IN 2015** EQUIBUTE phenylbutazone 200 mg/mL paste in 3 pack sizes of 250 mL, 500 mL and 1 Litre

Nine veterinary practices in Australia and NZ are owners of the company and bring a wealth of knowledge and experience in veterinary medicine. Caledonian is ideally structured to identify and respond to the genuine needs of the industry and welcomes ideas at any time for potential new products or projects.

Caledonian is the exclusive equine agent in Australia and New Zealand for the Arthrex Vet Systems range including ABPS (previously IRAP II), ACP Double Syringe, Wave III Arthroscopy Pump and many precision surgical instruments and devices (through Device Technologies). Caledonian's markets are expanding rapidly and include Australasia, Asia-Pacific, Europe, Africa and the Middle East.

**CEVA ANIMAL HEALTH PTY LTD**

Address: 11 Moores Road, Glenorie NSW 2157
Telephone: (02) 9652 7000
Email: info.australia@CEVA.com
Website: www.CEVA.com.au

CEVA Animal Health is a global company with its Australian base in Glenorie NSW. A range of products for equine, large and companion animals are manufactured at this site both for the Australian and export markets. By retaining local product development and manufacturing while leveraging CEVA’s global capabilities, CEVA is well placed to meet the requirements of our veterinary clients.

The acquisition of Nature Vet in 2010 and Delvet in 2008 has allowed CEVA to bring locally developed and international products to the Australian market. CEVA’s equine product range includes; osteoarthritis products (Tildren, Pentosan Equine, Pentosan Gold, Halo, Joint Guard), Readyserve® to support reproduction, parasiticides (Ammo® all wormer and Ammo® rotational wormer).

CEVA is committed to product innovation and supporting the veterinary industry in our shared ambition to improve animal health.

EVDS is passionate about horses and veterinarians who care for them.

Oliver imported the first PowerFloat from Canada in 2002, and has since trained over 400 veterinarians at EVDS workshops. We have supplied over 350 PowerFloats and an extensive list of dental equipment to Australasian vets. The PowerFloat, despite being sold only to veterinarians, is the most popular dental tool used in Australia and USA.

EVDS is also an equine practice based that performs over 1500 dentals annually. We only sell products that we use and believe in! Our PF service & repairs department was overhauled in 2014 – resulting in 7 day turnaround times! We supply the Porta Safe Stocks mobile crush trailer, which we have supplied to 62 vets. So please support us to help you and the horses you care for.

Our mission is to provide our veterinary clients with quality products and service at a competitive price and to support this with professional, reliable and friendly personalised attention.

Miatech Australia — the digital diagnostic imaging equipment supply and maintenance specialists.

DR Imaging is our life, it’s all we do. Miatech Australia prides itself on the highest levels customer support for the top end products we bring to the Australian market.

Boasting a 100% customer satisfaction rating, something very few companies can claim. As medical imaging technology continues to evolve, the needs of medical and veterinary professionals change. The expectations of their clients and patients also change. That’s why more and more professionals turn to Miatech Australia for their diagnostic imaging equipment. Talk to the professionals and the company that actually cares about their customers. The best advice, the best solutions to your DR imaging needs.

Minitube Australia is a market leader in advanced reproduction techniques for all species in the fields of AI and embryo transfer.

Based in Ballarat, Victoria, Minitube Australia is a subsidiary of Minitube International, the German based, family owned company established in 1970.

The company was named after the small straw that is now the standard package for frozen and fresh semen.

Minitube Australia offers a complete range of equipment, consumables and media to assist with semen collection, evaluation, transport, freezing, storage and embryo transfer. We are very committed to the equine industry and offer technical support and sponsorship of a number of approved professional development courses.

Minitube remains committed to research and innovative development, and we make every effort to offer friendly and prompt service combined with quality German made products.
Beginning with a small range of products in 1993, over the last twenty years Pacific Vet has established itself as one of Australia’s leading distributors of Veterinary supplies, specialising in reproductive products for Artificial Insemination & Embryo Transfer for large and small animals.

We always endeavour to keep up with requirements in the market place by introducing new products. Our product range includes: DVM Rapid Test™ Instrument Packages for testing IgG Serum / Sperm Concentration & Colostrum; McCulloch Medical Resuscitation kits; Emergency Medical Transfer sets; and Equine Semen Collection equipment to name a few.

As leading suppliers of specialty veterinary products, we pride ourselves in understanding the needs of our customers. Our professional & friendly staff have a reputation for providing exceptional service, and our quality and competitive prices have been the driving force behind our success.

New Cars Plus are a complete vehicle management solutions provider. Not only do we ensure you are matched to your perfect vehicle by providing a full test drive service, we then save you time and money on buying that vehicle.

After purchasing, we provide a wide range of benefits that continue to save you time and money. Our hassle free disposal service makes sure you get the highest return for the least effort, completing the life-cycle, giving you a full end-to-end solution.

Provet was established by a group of veterinarians who shared a common vision for the veterinary profession, to provide the veterinary industry with a resource to help veterinarians run better businesses and strengthen the profession through reinvesting proceeds into the industry professional bodies. Over 30 years on the vision continues to be realised. In 2015 we are proud to invest more than ever into professional support and veterinary education.

Provet is committed to giving back to the industry to ensure its continued growth. We are proud of our long association and value our relationships with the veterinary professional bodies through our industry sponsorships including; our AVA Gold Education Partnership, ASAVA Gold Education Sponsorship, EVA Education Partnership, and numerous other sponsorships and associations.

Provet Animal Health Practice Solutions is a leading Australasian Veterinary Software provider. Our aim is to make good practices, great businesses.

We provide software solutions that not only help drive customers to your clinic, but also allow you to effectively operate your business keeping your staff happy. We utilise research, customer feedback and development resources to ensure are regularly updating our software in ways that improve your business.

Our flagship product VisionVPM enables you to have up-to-the-minute financial control of your business with fully integrated accounting. It is proven practice management software that improves staff workflow and improves client retention.

We have a team of highly experienced support staff based both in Australia and New Zealand. We believe our team is our greatest asset. In a recent survey, over 98% of clients rated our support positively or very positively.

Provet Animal Health Practice Solutions is a Henry Schein, Inc.* company.

Suture Manufacturers - Specialising in Wound Closure

This Australian family company has been established due to demand by veterinary surgeons for high quality, low-cost sutures. Providing an ever-widening range of general and specialist sutures and are most sensitive to suggestions from Australian and New Zealand Veterinarians.

Recently, the cost of swaged sterile sutures has become unacceptably high as a consequence of the largely multinational distribution model. To address this situation, SilverGlide manufactures hospital quality sutures and sells them direct, with no wholesale mark-ups.

Ask us about our high visibility fluorescent sutures when you visit our stands 10 and 11 at the exhibition.

To complement our sutures, we have been encouraged to import a range of high quality German stainless steel instruments. All our SilverGlide instruments are medium priced and carry a five year manufacturer’s warranty. We’re looking forward to discussing your needs... The Team at SilverGlide.

**Troy Laboratories**
