VICTORIAN MICROCHIP ACCREDITATION PROCEDURE

To register to become Microchip Accredited in Victoria please complete this form and forward to the AVA (Victorian Division) office via email avavic@ava.com.au or fax 03 9600 2940. A microchip accreditation package will be mailed to you containing a DVD, an Assessment Form and a Tax Invoice Receipt. You are required to watch the DVD to answer the questions on the Assessment Form. The Assessment Form is then returned to the AVA (Victorian Division) office for marking and if you pass you will be sent a Certificate of Attainment, together with an Application for Recognition as a Qualified Veterinary Microchip Implanter form. This form should be filled out and mailed together with a copy of your Certificate of Attainment and a copy of your veterinary registration to either of the four Licensed Registries listed on the form. The licensed registry will then advise you of your accreditation number.
